### **The 2021 Approved Budget**

The 2021 Approved Budget, tagged “*Budget of Sustained Economic Growth and Social Transformation – Meeting the Next Level Agenda II*” was passed into Law by the Jigawa State House of Assembly and assented to by His Excellency, the Executive Governor of Jigawa State, Muhammad Badaru Abubakar, MON, mni, as contained in Law No.4 of 2020. The Law signed on the 15<sup>th</sup> of December, 2020, appropriated the sum of One Hundred and Fifty-Six Billion, Five Hundred and Eighty-Eight Million (₦156,588,000,000) Naira for the services of the Jigawa State Government during the period of 1<sup>st</sup> January to 31<sup>st</sup> December 2021.

The Policy Thrust and Priorities of the approved budget aligns with long-term strategic policy objective of the State Government which has been achieving sustainable improvements in the social and economic wellbeing of the people of the State. Specific priorities include sustained economic diversification derive through agriculture; support to Micro, Small and Medium Scale Enterprises; continued intervention in key Human Development Sectors particularly, Education, Health, Water & Sanitation and other Social Development Services; as well as Youths and Women Empowerment through targeted economic empowerment and other social intervention programs.

Addressing the devastating effects on social and economic lives also remains a key priority of the 2021 Approved Budget of the State Government. Accordingly, conscious efforts was made in all aspects of the budget to earmarked resources in that respects. For instance,

- a) About 25% of Personnel Cost allocations of some 30 Administrative Entities out of more than 100 was earmarked for staff working various aspects of COVID-19 response and related services;
- b) About ₦5 million was earmarked for the implementation of the COVID-19 Action Recovery and Economic Stimulus (CARES) Program though which it is envisaged that sustainable means of livelihoods would be created for at least 66,000 individuals, – mostly youths and women – through World Bank Supported CARES Program;
- c) Many SMES and business start-ups that suffered set-backs from the effects of the COVID-19 would be supported to build resilience and capacity to strive and survive the worst effects of the Pandemic.

### **Outcomes of Previous Responses**

With over 12% of the 2021 Revised Budget Estimates earmarked for various COVID-response, one of the key achievements in the implementation of the budget was the positive outcome of the State’s response to the pandemic. Both from the perspective of containing its health impact and the devastating effects it generated on the socioeconomic wellbeing of affected communities, the State Government has achieved a lot. As at the end of November 2020, the figures for Jigawa stood at about 325 confirmed cases with 11 reported mortalities which respectively represents about 0.5% and 1.0% of the National figures. At the peak of the pandemic, the State Government has established 3 Isolation Centers with 230 bed capacity equipped with all the requisite medical equipment including ventilators as well as State-owned COVID-19 Testing Center in Dutse which was fully accredited by the NCDC. Hundreds of millions were expended in procuring and

distributing of relief materials to lockdown communities and isolated persons including about 1,400 returned *almajirais*.

### 2021 COVID-19 Responsive Expenditure Allocations

As the effects of the COVID-19 Pandemic continues to linger it was still necessary to continue to institute measures and implement initiatives that would help ensure that pandemic is completely contained as well as to continue to alleviate its worst social and economic effects on the citizens. Accordingly as previously done, in the course of preparing the 2021 budget, many additional expenditure were sustained not only to mitigate the health effects of the pandemic, but also to continue to address the constrains and distress it caused on individuals and households and their means of livelihoods. Even as some of the provisions are either curative or preventive, the provisions come under both recurrent and capital expenditure aspects of the budget.
