1 Summary of Performance

1.A Introduction

This Budget Performance Report for Rivers State is prepared quarterly, and issued within 4 weeks from the end of each quarter.

This report includes, the original approved budget appropriation for the year 2023 against each organizational unit for each of the core economic classifications of expenditures (Personnel, Overheads, Capital, and Others); the actual expenditures for the quarter Q2, attributed to each organizational unit, as well as the cumulative expenditures for the year to date, and balances against each of the revenue and expenditure appropriations.

This Q2 report is assessed against the 2023 original budget of the State.

-

- Personnel – Economic Sub-Account Type 21
- Overheads - Economic Account Class 2202
- Capital - Economic Sub-Account Type 23
- Others - Economic Account Classes 2203-2209 as applicable

This Budget Performance Report is produced by the Ministry of Budget and Economic Planning, in conjunction with the Office of the Accountant General / Ministry of Finance of Rivers State and published on the Rivers State website.

The cumulative recurrent revenue for Q2 of 2023 recorded a performance of 53.2% of the approved budget for 2023, representing a marginal increase over and above average. This is however not unconnected with the relatively fixed revenue heads as approved in the 2023 appropriation and the associated in- inflows for the same period. Further breakdown of the recurrent revenue performance indicated above, shows as follows:

- FAAC in Q2 registered a favourable level of 62.0% and indicates a 51.2% performance of the 2023 total appropriated revenue from the Federation Account Allocation Committee.
- IGR (Independent Revenue) generated by the State in Q2 of 2023 amounted to 42.6%, indicating a slight decline as compared to the approved appropriation for the same period, 2023. The reasons are the presence of one-off payments (such as annual rents) for some of the revenue heads and the impact of tax rebates and holidays for some SMEs as part of the conditions for enhanced ease of doing business in Rivers state.

-On the whole however, the State in Q2 registered a marginal growth in revenue resulting from improved revenue drive and the activities of RIVCARES that led to update in tax records of participating businesses in the State.

Total Recurrent expenditure in Q2 of 2023 recorded a performance level 36.4%. This also represented a marginal increase as compared to the approved appropriation for the period under review. The breakdown of units of the recurrent expenditure indicated as follows:

- i. Personnel Cost has a performance record of 42.2% in Q2 of the fiscal year 2023. The percentage shows that Government commitment is on the increase with regard to the welfare of pensioners and the workforce in the State Civil Service.

Capital expenditure for Q2 of 2023 stood at 41.0% as compared to the approved appropriation for the period under review. This is a commendable level of performance in view of the overall capital budget volume for the same period. This is in continuation of Government programme to ensure adequate infrastructural development in the state. Significant attention was also paid to the completion of all on-going projects in the state.

The budget performance for Rivers State in Q2 of 2023 demonstrates the drive of the present administration to ascertain the accomplishment of its campaign promises.

The general overview of the budget performance for Q2 of 2023 indicates a total revenue performance of 55.2% when compared with the total approved revenue for the fiscal year 2023, while the total expenditure for the same period registered 39.5% of the total approved capital expenditure for the fiscal year 2023. The Government will continue to explore all available opportunities to improve the level of internally generated revenue alongside other sources of revenue, considering the dwindling allocations from FAAC, so as to meet up with the competing demands placed on the limited resources available to Government.
