Statement of Accounting Policies (IPSAS ACCRUAL)

- iii. **Financing Activities:** These comprise the change in equity and debt capital structure of the Government.

Accounts Receivables are shown at estimated realisable value after providing for bad and doubtful debts.

21. PREPAYMENTS

Prepaid expenses are amounts paid in advance of receipt of goods or services. Prepaid expenses can represent payments made early in the year for benefits to be received over the latter part of the year, or payments made in one year for benefits to be received in subsequent years. Prepayments for which the benefits are to be derived in the following 12 months should be classified as Current Assets. Where the benefits are expected to accrue beyond the next 12 months, it should be accounted for as a Long-Term Prepayment and classified as Non-Current Assets.

Prepayments that are identifiable with specific future revenue or event, e.g. adverts, should be expensed in the period in which the related event takes place; those that relate to specific time periods, e.g. insurance, rent, leasehold premises, should be recognised as an expense in such periods.

Revenue and expenses in relation to all investments are recognised in the Statement of Financial Performance.

24. PROPERTY, PLANT & EQUIPMENT (PPE)

These are assets that have been acquired or constructed and held for use from which benefits are derivable beyond a financial year.

The following formed part of expenditure on PPE:

- i. Amounts incurred on the purchase of such assets. Consumables are to be wholly expensed irrespective of their amounts.
- ii. Construction Cost- including materials, labour and overheads.
- iii. Improvements to existing PPE, which significantly enhance their useful life.

Cost

The cost of an item of PPE comprises of purchase price, including import and non-recurring costs and any directly attributable costs of bringing the asset to its location and working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

PPE have been stated at cost or at their professional valuation less accumulated depreciation.

The amount recorded for a PPE includes all costs directly related to its acquisition including expenditures incurred to place the asset in usable condition for the Service. Accordingly, the cost of the assets includes acquisition or construction costs,

Statement of Accounting Policies (IPSAS ACCRUAL)

custom duties, transportation charges, professional fees and installation costs. Cash discount has been netted against the cost of the assets.

Capitalisation

The capitalisation threshold shall be N50,000 (Fifty thousand naira).

Only amounts spent in connection with the above and whose values exceed (Fifty thousand naira) N50,000 shall be capitalised.

All assets equal to or above this amount shall be recorded in the Fixed Assets Register. However, in certain cases, individual insignificant value items such as chairs and tables, printers and UPS, etc were appropriately aggregated and apply the capitalisation threshold to the aggregate value.

Fixed assets whose costs are below the capitalization threshold are charged appropriately to the following accounts: office supplies - furniture, office supplies - IT equipment, office supplies - household equipments, etc.

Where an asset's category already exists for a newly acquired asset below the capitalisation threshold, such assets are capitalised irrespective of their cost and recorded in the fixed assets register under the appropriate category

Depreciation

The cost of PPE has been written off, from the time they are brought into use, on a straight-line basis over their expected useful lives as follows:

a. Buildings	2.5%
b. Plant and Machinery	15%
c. Motor Vehicles	26.7%
d. Office Equipment	27.5%
e. Furniture and Fittings	22.5%
f. Infrastructure	25%

Statement of Accounting Policies (IPSAS ACCRUAL)

The full depreciation charge has been applied to PPE in the months of acquisition and disposal, regardless of the day of the month the transactions was carried out. Fully depreciated assets that are still in use are carried in the books at a net book value of N10.00

Thus, Capital expenditure of the initial year of migration (i.e 2017) will henceforth be recognized as unclassified asset prior to asset register and valuation. So, in this regard capital expenditure in 2017 that were expensed have been reversed with the treatment as follows: The total amount was debited to asset account and the corresponding entry was credited to equity account.

Revaluation

The State's PPE are re-valued periodically in accordance with International Best Practices.

Surplus arising from the revaluation has to be transferred to the revaluation reserve in the financial position under reserves and to the statement of changes in net assets/equity. In case of revaluation deficit, it shall be set against the respective asset value and the corresponding entry to either the revaluation reserve - if surplus exists on the same class of asset, or to the statement of financial performance as an expense.

Disposal

Gains or losses on the disposal of fixed assets have been included in the income statement as either an income or expense respectively.

Impairment

The State has conducted an impairment review of its PPE where it suspects that impairment has occurred.

Investment PPE

These are cash-generating PPE owned by the State. The cost, capitalisation, depreciation and impairment of Investment PPE are same with PPE, but has been reported separately in the GPFS. Moreover, measurement of investment property is at fair value at the period end and any fair value gain or loss is recognized in the Statement of Financial Performance.

Statement of Accounting Policies (IPSAS ACCRUAL)
