KWARA

STATE OF HARMONY

Kwara State was created on 27th May, 1967 as one of the first 12 States to replace the nation's four regions. Originally, the State was known as West Central State but the name was changed to Kwara, a local name from the Niger River. The size of the State has been reduced over the years, as new States have been created within the Federation. It is one of the 36 States that makes up the Federal Republic of Nigeria with a total land mass of 34,500 square kilometres. It shares boundary to the South-West with Ekiti, Osun and Oyo States.

Ilorin, the capital city is situated 306 km inland from the coastal city of Lagos and 500 km from the Federal Capital, Abuja. Major towns include: Offa, Omu-Aran, Jebba, Patigi. Erin-Ile, Ilofa, Adeleke Igbewere, Ejidongari, Osi, Lafiagi, Gure, Afon, Kaiama, Isanlu-Isin, Egbejila, Ilofa, Iponrin, Igbaja, Oke-Ode, Ajase-Ipo, Share, Oro, Oro-Ago and Ira. Kwara State is known as the State of Harmony on account of the peaceful relations that exist among its multicultural and diverse population of about 2.5 million people. Followers of the three great religious faiths to be found in

Nigeria, Islam, Christianity and Traditional coexist within the State.

Kwara State consists of sixteen Local Government Areas. They are: Asa, Baruten, Edu, Ekiti, Ifelodun, Ilorin East, Ilorin South, Ilorin West, Irepodun, Isin, Kaiama, Moro, Offa, OkeEro, Oyun and Pategi.

ECONOMY

Agriculture is the main source of the economy and the principal cash crops are: cotton, cocoa, coffee, Kolanut, tobacco, beniseed and palm produce. Mineral resources in the state are Petroleum, Gold, limestone, marble, feldspar, clay, kaolin, quartz and granite rocks.

EDUCATION

Kwara has a Federal University, the University of Ilorin, a state university, Kwara State University, two polytechnics, Kwara State Polytechnic and Federal Polytechnic Offa, six colleges: the College of Education, Ilorin, College of Education, Lafiagi, College of Education, Oro, School of Health Technology, Offa, Kwara State College of Nursing, Oké ode and College of Nursing, Ilorin. It is also home to Seven Private universities; Landmark University, Omu-Aran, Thomas Adewumi University, Oko-Irese, AhmanPategi University, Pategi, University of Offa, Offa, Crown Hill University, Eiyen'korin, Al Hikmah University, Ilorin and Summit University, Offa. There is also a navy school, Nigerian Navy School of Health Science Irra Road Offa and International Aviation College, Ilorin.

TOURISM

Important tourist attractions in Kwara State include Esie Museum, Owu waterfalls, Imoleboja Rock Shelter, Ogunjokoro, Agbonna Hill and Awon Mass Wedding in Shao. There is also Sobi Hill amongst others which is the largest landform in Ilorin, the State Capital.

Governor AbdulRahman AbdulRazaq took office in 2019, after defeating every other contestant at the polls, including the candidate of the People's Democratic Party which was the ruling party in the state at the time. In his short time in office, he has focused on improving the lot of her citizenry.

The Kwara State Government is a strong proponent of the open government partnership – one that combines the powerful forces of government leaders, civil society and the citizenry to promote accountable, responsive and inclusive governance.

In line with Nigeria's 2019 - 2021 action plan, the state government is committed to implementing the following:

- ✚ Citizen participation in the budget cycle
- ✚ Open contracting
- ✚ Extractive sector transparency

- ✚ Tax reporting standards
- ✚ World Bank Ease of Doing Business Index

Renovation of schools and rehabilitation of roads, prompt payment of staff salaries, reaccreditation of the Kwara State School of Nursing and Midwifery and Colleges of Education, heavily subsidised healthcare for the poor and vulnerable, restoration of tap water to the state, especially the capital city Ilorin, graft-free payment of bursaries and scholarships and successful mainstreaming of women inclusion in government are a few examples of what he has achieved within his first ten months in office.

The Governor was born in Zaria, Kaduna State, into the family of the first lawyer from the country's northern region, AGF Abdulrazaq, a Senior Advocate of Nigeria (SAN), who holds the prominent traditional titles of Mutawalli Ilorin and Tafida of Zazzau (Zaria). AbdulRahman, a Muslim, comes from Ilorin West Local Government, which is in the Kwara Central Senatorial District of the State. He speaks Yoruba, English, and Hausa languages fluently.

Prior to his foray into politics, AbdulRahman's innate entrepreneurial spirit drove him to make history at the age of 29 when he founded NOPA Oil Services, the first indigenous company to trade in crude oil and petroleum products to the global markets (United States, Europe and Asia) and also to import crude oil and petroleum products into Nigeria. His success story inspired other young entrepreneurs who have also become accomplished oil and gas magnates.

Renowned for his immense knowledge of the petroleum industry, his managerial skills and business acumen cut across agriculture, construction, information technology, shipping and real estate. He is a consultant to various multinational oil companies and some countries.

He is also acclaimed for his silent philanthropic activities. These include educational scholarships for indigenes and provision of potable water for disadvantaged communities in Kwara State. Hundreds of women and youths have also benefited from his empowerment programmes, vocational training, provision of start-up capital for small scale businesses and provision of tools, post vocational training.

Abdulrahman, 60, is a renowned supporter of people living with disabilities. His contributions include a donation of Braille learning tools, educational aids and equipment to School of the Blind in Ilorin and Pacelli School of the Blind. His charitable nature is also not limited to Kwara State. He has generously donated to good causes such as his support to the Children of Africa Foundation whose major project is Mother and Child's Hospital (MCH) Bingerville, Côte d'Ivoire. His good work on philanthropy is not limited to Kwara State. Since assuming office, he has prioritised the School of Special Needs in Ilorin while facilities for people with disabilities and the vulnerable, including correctional centres, have received his attention.

He is also passionate about giving opportunities to the young people, which possibly explains the preponderance of people below and in their 40s in his cabinet. It has been said that AbdulRahman has the youngest and most gender-friendly cabinet in the country.

Governor AbdulRahman, whose political profile has continued to rise owing to his populism and pragmatism, is happily married to

Mrs. Olufolake AbdulRazaq with children, and he is grateful to serve as the 20th Governor of the great State of Kwara, one of Nigeria's first-generation states

INTRODUCTION

THE LEGAL FRAME WORK FOR THE AUDIT OF GOVERNMENT ACCOUNTS

The legal frame work under which the Auditor General performs his functions is quite robust. While the constitution of the country remains supreme extant law, there are numerous other legislations that empower him to conduct his audit. This include: The Kwara state Public audit law, 2021, The Audit Act, 1956 (as amended), financial Control and Management Act, 1958 (as amended), Fiscal Responsibility Act, Financial Regulations, Financial Instructions, Financial and Administrative Circulars and other laws of the State House of Assembly as instruments of establishing specific organs or agencies for the conduct of government transactions have provisions which empower the Auditor General to carry out statutory audit functions.

The audit involved the performance of procedures, the selection of which depends on the Auditors' judgment to obtain audit evidence about the amounts and disclosures in the financial statements. Evaluation of the appropriateness of the accounting polices used and the reasonableness of the overall presentation of the financial statements was also conducted. I believe the audit has provided reasonable evidence and assurances sufficient and appropriate to provide a basis for my audit opinion.

I have therefore, certified the individual accounts maintained by Ministries, Departments and Agencies (MDAs) that they are in order, subjects to comments contained in this report while irregularities have been communicated through various letters, reports and queries to the respective Accounting Officers. And all unresolved issues are presented in this report.

CONSTITUTIONALITY

The provisions of section 125(2) of the constitution of the Federal Republic of Nigeria, 1999 (as amended), Section 7 (1) of Kwara state Public Audit Law, 2021 provides for the audit of public accounts of state that "The public account of a state and of all offices and courts of the state shall be audited by the Auditor General for the state who shall submit his report to the House of Assembly of the state concerned, and for that purpose. The Auditor-General or any person authorized by him in that behalf shall have access to all the books, records, returns, and other documents relating to those accounts".

The provision of section 125(4) of the same constitution further provides that "The Auditor – General for the State shall have power to conduct periodic checks of all

government statutory corporations, commissions, authorities, agencies including all persons and bodies established by law of the House of Assembly of the State”.

PUBLIC ACCOUNTS COMMITTEE

TABLING OF PREVIOUS AUDIT REPORTS

Auditor General’s reports for the financial year ended 31st December, 2019 and 2020 had been submitted to the Honourable House of Assembly. The two years reports have been deliberated upon and finalized between the public account committee (PAC) of Kwara State House of Assembly, Office of The State Auditor General and the affected Accounting officers of the MDAs.

This development has awakened all the Accounting officers and officers responsible for financial duties and obligations to conduct themselves in accordance with the established rules and regulations and other extant laws guiding the conduct of accounting operations.

At this juncture, I wish to express my profound gratitude to members of this very important committee and the entire members of Kwara State House of Assembly for standing up to their constitutional duties.

They have equally energized the office to face its responsibilities with confidence and courage.

SUBMISSION OF THE ACCOUNTANT GENERAL’S FINANCIAL STATEMENT

The draft annual accounts and Financial Statement of the Government of Kwara State for the accounting period covering 1st January to 31st December, 2021 prepared by the State Accountant General’s Office and Ministry of Finance was received by my office on **30th March, 2022**, after proper review and routine audit scrutiny, some observations were raised and it was reconciled and responded to accordingly. After reconciliation and responses, the amended copies were returned on **17th June, 2022** to me for certification. The schedule of the statement in appendix II CAP is attached to this report.

Acknowledgement

I wish to express my heartfelt gratitude and that of the entire staff of the Office of the State Auditor General to His Excellency Mallam Abdulrahman Abdulrazaq, the Executive Governor of Kwara State for giving me the opportunity to serve as the state Acting Auditor General and his positive disposition towards the Office, without which the processing and production of this report would not have come to fruition.

The office of the State Auditor General lauds the efforts of the Kwara State House of Assembly and the State Governor for Passing and assenting to the Kwara State Public Audit Law, 2021 on 30th June, 2021. The law grants the Office of the Auditor General full autonomy in discharging its constitutional duties.

I wish to commend the Accountant General and his staff for being prompt in rendition of the Annual Financial Statements.

I wish to highly commend the commitment, selflessness, loyalty, and patriotism exhibited by the Final Accounts Audit Team. Worthy of recognition also is the contributions, hard work, and good spiritedness of the members of staff of the Office of Auditor General.

AUDITOR GENERAL'S CERTIFICATE

REPORT/CERTIFICATE OF THE STATE AUDITOR-GENERAL ON THE FINANCIAL STATEMENT OF KWARA STATE GOVERNMENT FOR THE YEAR ENDED 31ST DECEMBER, 2021

In accordance with the provision of Section 125(2) of the Constitution of the Federal Republic of Nigeria, 1999 (as Amended) and section 7(1) of the Kwara State Public Audit Law, 2021. I have examined the Accounts and Financial Statements of the Government of Kwara State of Nigeria for the year ended 31stDecember, 2021.

Accountant General's Responsibility

The Accountant General of the State is responsible for:

1. Establishing and maintaining adequate system of internal control to provide adequate and reasonable assurance that the transaction reported are recorded accurately and are within statutory authority.
2. Ensuring the integrity and objectivity of the Financial Statement to reflect the financial position of the State as at 31stDecember, 2021.

The Accountant General further accept responsibility for the maintenance of accounting records that may be relied upon in the preparation of Financial Statement as well as adequate system of internal control.

Auditor-General's Responsibilities

The State Auditor General has the statutory responsibility to form an independent opinion based on the audit of the financial statements and to report thereon as provided in section 11(1) of the Kwara State Public Audit Law, 2021.

Basis of Opinion

The audit was conducted in accordance with the Public Sector Auditing Standards, 1997, International Standards on Auditing and the International Standards of Supreme Audit Institutions (ISSA). During the audit, I evaluated the overall adequacy of the information presented in the General Purpose Financial Statements (GPFS), which were prepared in accordance with the International Public Sector Accounting Standards (IPSAS) Accrual Basis. I have obtained reasonable Information and explanations that to the best of my knowledge were relevant and necessary for the purposes of the audit, and serve as evidences and assurance which formed the basis of my independent opinion.

Opinion

In my opinion, the Financial Statements of the Kwara State Government for the year ended 31stDecember, 2021 comprising of the Statement of Financial Performance, Statement of Financial Position, Statement of Cash Flow, Statement of Changes in Net Assets/Equity and Notes to the Account, show a true and fair view of the State's financial performance, the cash flow and the financial position available as at that date. In my opinion the Kwara State Government has consistently complied with the extant guidelines and provision stipulated by the International Public Sector Accounting Standards (IPSAS) except for full consolidation of the subsidiaries. Associates and Joint ventures as required by International Public Sector Accounting Standard is (IPSAS) 35.

In view of the above, the Kwara State Government is not able to make an explicit statement of its full compliance with Accrual basis IPSASS in preparing its transitional IPSAS financial Statement for the year ended 31stDecember, 2021.

Special Opinion

The State is eligible to receive grant financing from the Federal Government subject to performance against predefined criteria in the World Bank assisted States Fiscal Transparency, Accountability and Sustainability Program for Results (SFTAS PforR). The receipts and Expenditure framework are detailed in the Disclosure Notes attached to the General-Purpose Financial Statements (GPFS) of Kwara State Government. In all material respects, the expenditure incurred and the fund received against the SFTAS program by the state for the year ended 31st December, 2021 are in accordance with International Public Sector Accounting Standard (IPSAS).

**OFFICE OF THE KWARA STATE
ACCOUNTANT GENERAL
KWARA STATE GOVERNMENT**

RESPONSIBILITY FOR FINANCIAL STATEMENTS

These Financial Statements have been prepared in accordance with the provisions of the Finance (Control and management) Act cap 144 LFN. The Financial Statements comply with the Generally Accepted Accounting Practice (GAAP) and prepared in accordance with the International Public Sector Accounting Standards (IPSAS) accrual basis.

To fulfill accounting and reporting responsibilities, I as the Accountant General and the State's Accounting Officer for receipts and payments of Government, I am saddled with the responsibility for establishing and maintaining an adequate system of internal control designed to provide reasonable assurance that the transactions recorded are within statutory authority and properly recorded to prevent fraud and irregularities while resources are safeguarded.

The responsibility for the preparation of the Financial Statements rests solely with the Office of the Accountant General and as such efforts were made to ensure that these Financial Statements fairly reflect the financial position of Kwara State Government as at 31st December, 2021 and its operations for the year ended on that date.

These Financial Statements are prepared in accordance with IPSAS Accrual basis. However, by virtue of IPSAS 33 (First Time Adoption of Accrual Basis IPSAS) Kwara State Government is allowed a period of three years from the date of commencement to adopt the exemptions in-respect of its yet – to – be re-valued Assets. It is worthy of note that these Financial Statements is in the second year of the three years transitional relief period of IPSAS 33 (First Time Adoption of Accrual Basis IPSAS) therefore, the transitional exemption still applies.

The Accountant General Accepts responsibility for the integrity and objectivity of the Financial Statements and the information contained therein.

STATEMENT OF ACCOUNTING POLICIES

(IPSAS ACCRUAL)

The following is the summary of some of the accounting policies adopted by the Government of Kwara State in the preparation of year 2021 Financial Statements.

I. Basis of Account:

The Financial Statement of Kwara State Government has been prepared using the accrual basis in accordance with the requirement of International Public Sector Accounting Standards (IPSAS) 33 'First time adoption of accrual IPSAS' using the General-Purpose Financial Statement format. The Office of the Accountant General is empowered to choose the basis of reporting.

II. Accounting Policies/Principles:

The objective of the Financial Statement is to provide information about the Financial Position, Performance and Cashflow of an entity that is useful to a wide range of users. Being a public sector entity, the objectives were developed specifically to provide information useful for decision making and also to demonstrate the level of Kwara State Government's accountability with the resources entrusted to it.

The key consideration and accounting principles to be followed when preparing the Financial Statement are laid out in the Financial Instructions and not at variance with those described in IPSAS 1. This includes fair presentation, accrual basis, going concern, consistency of presentation, aggregation, offsetting, and comparative information.

Presentation of the Financial Statement in accordance with the above-mentioned rules and principles requires management to make estimate that affect the reported amount of certain items in the Statement of Financial Position and Statement of Financial Performance, as well as the related disclosures. Kwara State Government has adopted relevant IPSAS Standards for the year beginning 1st January 2020 and has also adopted the transitional exemptions provided in IPSAS 33 'First Time Adoption Accrual Basis.

III. Basis of Preparation

a. **Basis of measurement**

The Financial Statement has been prepared on the historical cost, unless stated otherwise. In this transitional Financial Statement for Kwara State Government, the following statements are presented:

- ❖ Consolidated Statement of Financial performance for the year ended 31st December, 2021

- ❖ Consolidated Statement of Financial Position as at 31st December, 2021
- ❖ Consolidated Statement of Cash Flows for the ended 31st December, 2021
- ❖ Statement of change in Net Asset for the year ended 31st December, 2021

b. Functional and Presentation Currency

The financial statements are prepared in Nigerian Naira, which is the functional and reporting currency of Kwara State Government

c. Accounting Period:

The Accounting year is from 1st January, 2021 to 31st December, 2021

d. Going Concern:

The Financial Statements have been prepared on a going concern basis

e. Consolidation Policy

The Consolidation of the General-Purpose Financial Statements is based on Accrual Basis of Accounting. All Ministries, Department and Agencies of the Government are consolidated except for Government Business Enterprises (GBEs). Consolidation of the General-Purpose Financial Statements agree with the provisions of all the relevant legal requirements

f. Comparative Information

The General-Purpose Financial Statements discloses all numerical information relating to previous period

g. Budget Figures

These are figures from the approved budget in accordance with the Appropriation Act.

h. Revenue

All revenue accruing to the Government are recognized when it is due and not when received. This are classified as Tax and Non-Tax Revenue.

i. Government Aid and Grants:

Aid and Grants to the Government are recognized as income on entitlement, while aid and grants to other government/agencies are recognized as expenditure on commitment

j. Expenses

All expenses are reported on an accrual basis, i.e. all expenses are to be recognized in the period they are incurred or when the related services are enjoyed, irrespective of when the payment is made.

k. Statement of Cash flow

This statement is prepared using the direct method in accordance with the format provided in the GPFS. The Cash flow statement shall consist of three (3) sections:

- Operating activities include cash received from all income sources of the Government and record the cash payments made for the supply of goods and services.
- Investing activities are those activities relating to the acquisition and disposal of non-current assets.
- Financing activities comprise the change in equity and debt capital structure of the Government.

l. Interest on Loans:

Interest on loans is treated as a charge in the financial performance report (Statement of Financial Performance).

m. Loans & Debts

Loans are funds received to be paid back at an agreed period. They are classified under liability in the General-Purpose Financial Statement and are categorized as either short or long term. Short-term loans and debts are those repayable within one calendar year, while long-terms loans and debts are those that fall due beyond one calendar year.

n. Accrued Expenses

These are monies payable to third parties in respect of goods and services received. Accrued Expenses for which payment is due in the next 12 months shall be classified as Current Liabilities. Where the payments are due beyond the next 12 months, it shall be accounted for as Non-Current Liabilities

o. Contingent Liability

A contingent liability is a possible obligation arising from past events whose existence will be confirmed only by uncertain future event(s) or present obligation arising from past events that are not recognized because either an outflow of economic benefit is not probable or the amount of the obligation cannot be reliably measured. Contingent liabilities shall only be disclosed in the Notes to the GPFS.

IV. Summary of Significant Accounting Policies

Kwara State Government has applied the following accounting policies in the preparation of the Financial Statement for the year ended 31st December, 2021. These policies have been consistently applied to all the years presented, unless otherwise stated.

a. Revenue from Non-Exchange Transactions

These are transactions in which Kwara State Government receives value from, without directly giving appropriately equal in exchange. This includes mainly direct and indirect taxes. In addition to taxes, Kwara State Government also receives from other parties, such as transfer, grants, fines, and donations

- **Taxes Receipts-** Taxes are economic benefits or service potential compulsory payment or payable to Kwara State Government, in accordance with laws and/or regulations, established to provide revenue to the Government. Taxes do not include fines or other penalties imposed for breaches of law. Kwara State Government recognized revenue from taxes by reference to earning of assessable income by taxpayers. Taxes are measured at the fair value of the consideration received or receivable to the State Internal Revenue Service (KWIRS). The tax rates and tax laws used to compute the amount are those that are enacted at the reporting date. The State Government taxes includes pay-as-you-earn, withholding tax, stamp duties, development levy, property tax, business premises and other tax receipts.
- **Fine and Fees-** These are inflows of future economic benefit or service potentials from non-exchange transactions other than taxes, they are economic benefits or service potential receivable by Kwara State Government, as determined by court or other law enforcement body, as consequence of breach of laws or regulations and are recognized at the point when the levy is being imposed.
- **Statutory Allocations-** Statutory Allocations are income from the revenue allocation system wherein Federal Government allocates funds to each State of the Federation based on predetermined constitutional requirements. Statutory Allocations are measured at a value and recognized at point of receipt.
- **Capital Receipt** – These includes grants and other capital receipts. Capital receipts are measured at fair value and recognized at the point of grant or when there is an enforceable claim to receive the assets if it is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to Kwara State Government and can be measured with reliability.

b. Revenue from Exchange Transactions

These are transactions in which Government receives consideration from and directly gives approximately equal value in exchange from goods, services, or use of assets. They are recognized at fair value of consideration received or receivable. The State

revenue from exchange transactions includes Rent on Government Properties and other miscellaneous revenue from exchange transactions.

V. Cash and Cash Equivalent:

Cash equivalent as show in the Statement of Financial Position comprises cash in bank, deposit held at call with banks and time deposits which are readily convertible to cash with maturity.

VI. Foreign Currency Transaction:

Items included in the Financial Statement of each Government entities are measured using the currency of primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Nigerian Naira (NGN) rate of exchange at the dates of transactions. Foreign currency balances as at the year ended are value at the exchange rate prevailing at that date.

Monetary assets and liabilities dominated in foreign currencies are translated into Nigerian Naira in basis of the exchange rate applicable at the reporting period.

Foreign exchange gains and losses that related to public debts are presented within the public debts charge in the Statement of Financial Performance.

VII. Notes to the Accounts:

These are narrative, descriptions or more detailed analyses of the amounts shown on the face of the statements, as well as additional information. The Items in the Statements is cross reference to any related information in the Notes.

VIII. Employee Benefits:

Short term employee benefit: - Government approves short term benefits in form of employee salaries and wages in the period in which associated services are rendered, the Government recognized short term employee benefits costs when the employee rendered service in exchange for those benefits. The State is yet to operate contributory pension scheme except for Kwara State Internal Revenue Service.

IX. Explanation of difference between Financial Budget and Actual Amount

✓ **Internally Generated Revenue**

Realization of the receipt from direct taxes, licenses, penalties, fines, fees, and other IGRs was lower than the budgeted amount.

✓ **Statutory Revenue**

This is statutory allocation to the State from the Federation account that was shared within the financial year based on the sharing formula. This type of revenue is only recognized when it was receipt because the state does not have control on generation nor the sharing. The effect of Post COVID-19 had in one form or the other affected the

economic activities and impacted negatively on the revenue generation likewise allocation to the three (3) tiers of Government.

Payables and other Liabilities	2021	2020
Outstanding Gratuities	15,127,918,423.68	14,026,067,147.97
Contractors' arrears	4,474,087,077.60	5,631,990,002.90
Contingent liabilities on Litigations	1,272,158,011.73	1,284,908,011.73

- **Outstanding Gratuities:** - represents the Gratuities as at the Last Quarter of the Financial Year 2021 that is yet to be paid as at 31/12/2021
- **Contractors' arrears:** - represents the value of yet to be paid interim & final certificate of valuation of work done by various contractors (Advance payment).
- **Contingent liabilities on Litigation:** - represent the outstanding liabilities from previous years up to date.

✓ **Other Grants Received**

The participation of the Kwara State in the World Bank assisted **States Fiscal Transparency, Accountability and Sustainability Program for Results (SFTAS PforR)** made State to earn extra amount of Grant through a determine Disbursement Linked Results (DLR). The achievement of performance by the State is verified by an Independent Verification Agent.

✓ **Public Debt Profile**

The composition and outstanding balances of Kwara State public debts of external and domestic are in the tune of **N20,182,461,047.14** and **N97,855,895,056.59** respectively totaling **N118,038,356,103.73** to as at 31st December, 2021.

S/No	External Debt	Year Amount(\$)	Outstanding Balance Amount(NGN)
1	KWSG HEALTH PROJECT(ADF)	1999 22,035.47	9,100,428.76

The sum of **N118,038,356,103.73** indicates the total outstanding Public Debt of Kwara State. The Domestic component dominates the External Debt with 82% and 17% respectively. It is noteworthy that debts are being serviced as at when due.

YEAR 2021 BUDGET

The objective of 2021 Budget is to accelerate the pace of economic recovery from Covid-19 pandemic which had slowed down the economic growth of the state during the outgoing year. The budget is therefore designed and prepared amidst the economic challenges to birth new programmers and projects that will resuscitate the state's economy through infrastructure investment, improved business environment for investors, reduced rate of unemployment among our youths, poverty alleviation, food security and livelihood support to poor and vulnerable households in the state. The 2021 Budget is tagged "Budget of Reformation for Inclusive Growth".

The 2021 Budget major objectives includes: -

- (i). To reduce cost of governance through institutional reforms and ensure enhanced funding towards capital investment that stimulates economic growth

- (ii). To significantly reduce youth unemployment through direct Jobs, public works and entrepreneurship development
- (iii). To provide a more conducive business friendly and secured environment for investors through provision of socio economic infrastructure development for enhanced productivity in the state economy.
- (iv). To expand the productive base of the state economy through increased agricultural value chain and industrial development.

The 2021 budget is built on Zero-Based Budgeting principle to ensure prudent utilization of the State resources. However, the state 2021-2023 Medium Term Expenditure Framework (MTEF) set out the parameters for 2021 Budget, as adopted by the federal government, which include:

- Benchmark oil price of 40 US Dollars per barrel.
- Daily oil production estimate of 1.86 million barrels (inclusive of Condensates of 300,000 to 400,000 barrels per day).
- Exchange Rate of ₦379 per US Dollar
- GDP growth projected at 3.0 percent and
- Inflation closing at 11.95 percent.

In the light of the above fiscal assumptions and parameters, 2021 approved budget size is **One Hundred and Thirty-Seven Billion, Six Hundred and Eighty-Four Million, Nine Hundred and Fifteen Thousand, Five Hundred and Fifty Naira (N137,684,915,550.00)**.

This shows an increase of **Twenty-Three Billion, Twenty Million, Two Hundred and Seven Thousand, Five Hundred and Eighty-One Naira (N23,020,207,581.00)** only compared to the 2020 *Revised Budget*. Out of this Total Budget size, the sum of **Seventy Billion, One Hundred and Thirty-One Million, One Hundred and Eighty-Five Thousand, Seven Hundred and Seventy-Four Naira (N70,131,185,774.00)** only or 51% is for *Recurrent Expenditure* while the sum of **Sixty-Seven Billion, Five Hundred and Fifty-Three Million, Seven Hundred and Twenty-Nine Thousand, Seven Hundred and Seventy-Six Naira (N67,553,729,776.00)** only or 49% is for *Capital Expenditure*.

SOURCES OF 2021 REVENUE ESTIMATE

The primary sources of revenue expected to the State Government to fund 2021 Budget are as follows: -

- ✓ **Statutory Allocation:** - This is the State's share of collectable revenue from the Federation Account, which is estimated at **Thirty-Six Billion, Three Hundred and Two million, One Hundred and Sixteen Thousand, Eight Hundred and Forty naira (N36,302,116,840.00)** only or 26 percent of the total revenue.

- ✓ **Value Added Tax:** - The estimated VAT receipt is Sixteen Billion, Four Hundred and Eighty-Three Million, Nine Hundred and Sixty-Two Thousand, Five Hundred and Ninety-One Naira (N16,483,962,591.00) only or 12 percent.
- ✓ **Other Sundry Revenue:** - The estimated sundry revenue from the Federation Account is Four Billion, Seven Hundred and Ninety-Two Million, One and Nineteen Thousand, Five Hundred and Fifty-One Naira (N4,792,119,551.00) only or 3 percent
- ✓ **Internally Generated Revenue (IGR):** - The estimated internally generated revenue is Twenty-Nine billion, Three Hundred and Seventy-Six Million, Seven Hundred and Nine Thousand, Two Hundred and Seventy-Four Naira (N29,376,709,274.00) only or 21 percent
- ✓ **Income from other Internal sources:** - This is estimated at One hundred and ninety-three million, Three Hundred and Twenty-Two Thousand, Six Hundred and Forty-Six Naira (N193,322,646.00) only or 0.1 percent.
- ✓ **Capital Development Fund and Financing Funds (Miscellaneous Receipt & Refund):** - This source is estimated at Twelve Billion, Four Hundred and Fifty- Eight Million, Thirty-Two Thousand, Four Hundred and Forty Naira (N12,458,032,440.00) only or 9 percent.
- ✓ **Aid & Grants (Internal & External):** - This is estimated at Nineteen Billion, Seventy-Eight Million, Six Hundred and Fifty-Two Thousand, Two Hundred and Eight Naira (N19,078,652,208.00) only or 14 percent
- ✓ **And an opening balance** of Nineteen Billion Naira(N19,000,000,000.00) only or 14 percent

This gives a total budget size of **One Hundred and Thirty-Seven Billion, Six Hundred and Eighty-Four Million, Nine Hundred and Fifteen Thousand, Five Hundred and Fifty Naira (N137,684,915,550.00)** only which is as shown in the table below:

1	Statutory Allocation	36,302,116,840.00
2	Value Added Tax	16,483,962,591.00
3	Other Sundry Revenue	4,792,119,551.00
4	Internal Generated Revenue	29,376,709,274.00
5	Income from other Internal sources	193,322,646.00
6	Capital Development Fund & Financing Funds	12,458,032,440.00
7	Aid & Grants (Internal & External)	19,078,652,208.00
8	Opening balance	19,000,000,000.00
	Grand Total	137,684,915,550.00

YEAR 2021 BUDGET FOR EXPENDITURES

The total recurrent expenditure for the 2021 financial year is estimated at **Seventy Billion, One Hundred and Thirty-One Million, One Hundred and Eighty-Five Thousand, Seven Hundred and Seventy-Four Naira (N70,131,185,774.00) only** which includes the following components: -

- (i) **Personnel Cost:** - A total sum of Twenty-Three Billion, Five Hundred and Thirty-Eight Million, Nine Hundred and Eighty-Eight Thousand, One Hundred and Seventy-Two Naira **(N23,538,988,172.00) only** is estimated for personnel cost which represent **17 percent** of the aggregate recurrent expenditure.

Details which are as follow:

- a. Personnel Cost (Ministries) which is Fourteen Billion, Five Hundred and Seventy-Eight Million, Two Hundred and Seventy-Five Thousand, One Hundred and Eighty Naira (N14,578,275,180.00) only.
- b. Salaries / Allowance of Statutory Officer Holder which is Three Hundred and Fifty Million Naira(N350,000,000.00) only.
- c. Salaries / Allowance of Parastatals /Tertiary Institution, which is Eight Billion, Six Hundred and Ten Million, Seven Hundred and Twelve Thousand, Nine Hundred and Ninety-Two Naira (N8,610,712,992.00) only.
- (ii) **Overhead Cost:** - This includes subvention to Parastatals, Support grant as well as Tertiary Institutions Overhead and Operational cost for Ministries, Departments and Agencies. It is estimated at a total sum of Twenty-Nine Billion, Four Hundred and Sixty-Nine Million, Two Hundred and Twenty-Six Thousand, Eight Hundred and Five Naira **(N29, 469,226,805.00) only** or **21 percent**. Further detail are as follows:
- a. Overhead cost of Ministries which is Nineteen Billion, Eight Hundred and Seventy-Seven Million, Seventy-Nine Thousand, One Hundred and Nineteen Naira (N19,877,079,119.00) only
- b. Overhead cost of Parastatal and Tertiary Institutions which is Nine Billion, Five Hundred and Ninety-Two Million, One Hundred and Forty-Seven Thousand, Six Hundred and Eighty-Six Naira (N9,592,147,686.00) only.
- (iii) **Other Consolidated Revenue Fund Charges:** - This is estimated at One Billion, Forty-Nine Million, Nine Hundred and Forty-Two Thousand, Six Hundred Twelve Naira **(N1,049,942,612.00) only** or **1 percent**.
- (iv) **Social Benefit (Pensions and Gratuities):** - is estimated at Nine Billion, Three Hundred and Sixty Million Naira (N9,360,000,000.00) only or **7 percent**

- (v) **Recurrent Debt Service Charges:** - is estimated at Six Billion, Seven Hundred and Thirteen Million, Twenty-Eight Thousand, One Hundred and Eighty-Five Naira (**N6,713,028,185.00**) only or **5 percent**.

The Total **Capital Expenditure** is estimated at **Sixty-Seven Billion, Five Hundred and Fifty-Three Million, Seven Hundred and Twenty-Nine Thousand, Seven Hundred and Seventy-Six Naira (N67,553,729,776.00) only** which represent **49 percent** of the aggregate expenditure for the 2021 financial year. This increase reflects Kwara State Government commitment to embark on critical infrastructure and human capital development.

The breakdown of the approved budget is as listed below:

S/No	Particular	Amount (NGN)
1	Personnel Cost	23,538,988,172.00
2	Overhead Cost	29,469,226,805.00
3	Other Consolidated Revenue Fund Charges	1,049,942,612.00
4	Social Benefit (Pensions & Gratuities)	9,360,000,000.00
5	Recurrent Debt Service Charges	6,713,028,185.00
	Total Recurrent Expenditure	70,131,185,774.00
6	Capital Expenditure	67,553,729,776.00
	Total Budget Size	137,684,915,550.00

REVISED BUDGET FOR YEAR 2021

However, during the year under review, the approved estimates was revised to take care of some exigencies of government and to show the economic reality. The breakdown of the revised budget for the year is as stated below: -

S/No	Revenue and Expenditure Item	Approved Budget	Revised Budget 2021
		2021	
1	Statutory Allocation	36,302,116,840.00	36,097,306,158.00
2	Value Added Tax	16,483,962,591.00	18,905,344,624.00
3	Other Sundry Revenue	4,792,119,551.00	4,792,119,551.00
4	Internally Generated Revenue	29,376,709,274.00	28,199,910,200.00
5	Income from other Internal sources	193,322,646.00	193,322,646.00
6	Capital Development & Financing Fund	12,458,032,440.00	41,393,927,699.00

The revised budget of **Capital Expenditure** for the year was Ninety-One Billion, Twelve Million, Two Hundred and Seventy-Seven Thousand, Eight Hundred and Twenty-Eight Naira **(N91,012,277,828.00)** Only while the actual capital expenditure was Thirty-Five Billion, Nine Hundred and Nine Million, Eighty-Three Thousand, and Twenty Naira **(N35,909,083,020.00)** only representing **39%**.

Conclusion

Efforts were made to ensure that these Financial Statements reflects the TRUE Financial Position of the Government of Kwara State as at 31st December, 2021.

Considering the analysis and appraisal above, it is evident that the State Government has met substantial part of the 2021 budget. It is therefore my pleasure at this moment to appreciate all the staff of the Accountant – General’s Office for their loyalty, commitment, and dedication to duties during the preparation of this account.

 30/08/2022

STATEMENT OF CASH FLOW (CASH BALANCES)

The cash balances are made up of various cash book balances maintained by the main Expenditure control section of Accountant General’s Office. These balances have been reconciled with the banks statements. As at 31st December, 2021, the total cash balance was ₦33,143,148,550.64.

INVESTMENT

The state Government investment as at January 1st 2021 was ₦490,369,201.55. There was no acquisition of investment during the year through the ministry of finance incorporated leaving a balance of ₦490,369,201.55 as at 31st December, 2021. The State government values of these investments are stated at acquisition price. During the year under review 2021, no quoted companies’ shares were sold.

IPSAS IMPLEMENTATION IN KWARA STATE

The Kwara State Government has adopted the Accrual Basis of International Public Sector Accounting Standards (IPSASs) and as a result the Financial Statements have been prepared in accordance with the Accrual Basis IPSASs. The implementation of Accrual Basis of IPSAS Accounting in Kwara State commenced on 1st January, 2020 and therefore the current year 2021 Audited Financial Statements is the second in the series. The IPSAS standards require a full consolidation of all Government Ministries, Departments, Agencies (MDAs) and Parastatal Organizations; however, the consolidation of the Subsidiaries, Associates and Joint ventures of the State Government has not yet occurred and as such, the figures contained in these financial statements presented by the Accountant General were yet to fully reflect all the activities of the State Government. It is therefore, important for the State Government to have holistic view of its financial performance and position; hence consolidation of all accounts would provide the information and window to allow for adequate assessments thereof.

As at date, the under-listed classes of Assets have not been recognized, measured and reported in the year 2021 accrual IPSAS based Kwara State Government Financial Statements:

- Infrastructural Assets
- Land building
- Plant and Machinery
- Furniture and Fittings
- Motor Vehicles
- Medical and Laboratory Equipments
- Library Books
- Computer and Office Equipment
- Leasehold Plants
- Tourism (Stadia)
- Agricultural Lands

- Intangible Assets (Information, Communication and Technology)
- Parks and Gardens
- Specialized Equipments (such as Fire Fighting Equipment, Oxygen Tank, Survey & Precision Equipment, Waste Disposal Trucks etc.)
- Other classes of Assets namely investment Property, Heritage Assets, Biological Assets and Concession Assets (where applicable).

Thus, it is necessary to state that the following items were observably not recognized in the year 2021 Financial Statements:

- Full consolidation of Subsidiaries, Associates and Joint Ventures of the State;
- Related parties' disclosure.

SFTAS GUIDELINES AND EFFECT ON THE STATE AUDITED FINANCIAL STATEMENTS

The States Fiscal Transparency, Accountability and Sustainability (SFTAS) initiative is a World Bank Assisted Programme of the Nigeria Governor's Forum with the aim to promote transparency, accountability and sustainability in public governance. A special feature which characterized year 2021 Financial Statements derived from the SFTAS directive which stipulates the need to have specific disclosures (by way of notes to the accounts) on the Recurrent Expenditure (Personnel Cost and Overhead Cost) of four (4) key Ministries and Agencies in the State namely

1. Ministry of Finance,
2. Ministry of Planning and Economic Development,
3. Kwara State Internal Revenue Service and
4. Office of the Accountant General;

And requirement of the Auditor-General to give specific audit opinion on the transactions of the above named four (4) MDAs.

In compliance thereof with the SFTAS requirements, pages 6 and disclosure notes of this report convey the audit opinion and note disclosure in respect of the affected four (4) MDAs.

COVID-19 RESPONSE ACTIVITIES AND EFFECT ON THE STATE AUDITED FINANCIAL STATEMENTS

The States Fiscal Transparency, Accountability and Sustainability (SFTAS) initiative is a World Bank Assisted Programme of the Nigeria Governor's Forum with the aim to promote transparency, accountability and sustainability in public governance. A special feature which characterized year 2021 Financial Statements derived from the SFTAS Disbursement linked results (DLR 13.3) directive which stipulates the need to have specific disclosures (by way of notes to the accounts) on the execution of covid-19 response tagged expenditures; Recurrent and Capital Expenditures of key Ministries, Departments and Agencies in the State.

In line with DLI 13.3 of SFTAS requirement, that stipulates execution of at least 90% of the tagged Covid-19 response expenditure in the approved FY2021 state budget. The Kwara State Government approved the sum of ₦721,906,700.00 and ₦7,670,158,667.00 for Covid-19 tagged Recurrent and Capital Expenditures respectively while the actual expenditure stood at the sum of ₦859,609,530.09 and ₦4,220,728,530.96 for Recurrent and Capital Expenditures respectively. This represents 119% and 55.03% FY2021 budget performance on Recurrent and Capital Expenditures respectively.

The state was unable to assess the COVID-19 Action Recovery and Economic Stimulus (CARES) WB and FGN COVID-19 Intervention Facility to State Government, whereas the programme under COVID-19 Action Recovery and Economic Stimulus (CARES) WB has commenced using the state fund.

In compliance thereof with the SFTAS requirements, in our opinion, the Accountant-General disclosure note on Covid-19 Response activities reflects an above-average budget performance by the State Government to curtail the effects of the Covid-19 pandemic.

OBSERVATION

GENERAL OBSERVATION

It was observed that financial data used for the preparation of Statement of Financial Performance, Statement of Changes in Net Assets/Equity, Statement of Cash flow, Statement of Financial Position and Notes to the Account was extracted from Ministerial Financial Records. The lapses and irregularities noted in the Ministerial accounts have been brought to the notice of the ministries Accounting Officers concerned, their reaction has been received and follow up action continues as at the time of writing this report in the year 2021.

ASSET REVALUATION

During the review of the audit of the Kwara State Government accounts and records, it was observed that the assets and liabilities of the Government has not been fully revalued in line with the provisions of the International Public Sector Accounting Standard (IPSAS) Accrual Basis of accounting.

In view of the above, the Kwara State Government is not able to make an explicit statement of its full compliance with Accrual basis IPSAS in preparing its transitional IPSAS Financial Statement for the year ended 31st December, 2021.

CONTRACTS AND CONTRACTOR'S DOCUMENTATION

The review of the ministerial records and accounts through which capital projects were executed in the year ended 31st December, 2021 revealed that the required and prerequisite document which a contractor is expected to possess and make available before qualifying to bid for any contract as prescribed by the Public Procurement act, 2007 and the Kwara State Public Procurement Law, 2018 as amended in 2021 were not properly documented in some ministries.

Further audit test revealed that the documents were actually obtained from the contractor and attached to the relevant payment vouchers by the office of the Accountant General but copies of the documents were not in the contract files of some ministries.

The attention of the Accounting officers of the concerned MDAs has been drawn to the observations, follow up action continues.

RECOMMENDATIONS

ASSET REVALUATION

International Public Sector Accounting Standard (IPSAS33 - First Time Adoption) grants transitional exemptions to entities adopting accrual basis for the first time, providing a major tool to help entities along their journey to implement IPSASs. It allows first-time adopters three years to recognize specified assets and liabilities. This provision allows sufficient time to develop reliable models for recognizing and measuring assets and liabilities during the transitional period.

The Kwara State Government through the office of the State Accountant General commenced the adoption of IPSASs Accrual Basis of accounting in the preparation and presentation of financial statements since the year 2020.

In line with IPSAS 33, we wish to reiterate the need for the state government through the office of the Accountant General to revalue the entire State owned Asset and Liabilities for immediate inclusion and adjustments in the financial statements before the expiration of 3-year transition period.

DOCUMENTATION OF PAYMENT VOUCHERS AT THE MDA'S

The Office of the Accountant General is advised to direct all the Controllers of Finance and Account (CFAs) in all Ministries, Departments and Agencies to maintain a soft copy of the Cash Book, DVEA Book, and Payment Register.

CONTRACT DOCUMENTATION

The Office of the Accountant General is advised to ensure that the affected Ministries, Departments, and Agencies (MDA's) contract and contractor files contain all necessary documents as prescribed by the Kwara State Public Procurement Agency. This will ensure that proper and adequate contract files are maintained by the MDA's to strengthen probity and accountability.

CAPACITY BUILDING

Adequate incentives, training and retraining of the staff should be provided to the staff as and when due.

INTERNAL CONTROL SYSTEM

The existing internal control system in the Office of the State Accountant General is very encouraging; this should however be strengthened and straighten by the management to ensure judicious use of public fund.

Note: These observations noted do not have any significant effect on the financial statement presented.

GENERAL

PROGRESS OF WORK

The main Accounts and Sub-treasury Headquarters had been audited up to 31st December, 2021. The Ministries, Departments and Agency's (MDA's) accounts and records are being examined on a continuous basis.

STAFF STRENGTH

The office of the State Auditor General in the year 2021 had staff strength of One Hundred and Fifty (150) employees. During the year all deserving members of staff sat for promotion examination and were promoted.

TRAINING

Paucity of fund was the main reason why in-House training could not be conducted for the staff in the year under review. However, the members of staff with professional qualifications in the Office were mobilized for their annual mandatory continuous professional training (MCPDE).

MOTOR VEHICLE

The office has only two (2) pool vehicles for its operations running over Ten (10) years which is ageing and grossly inadequate, and it affects the effectiveness and efficiency in the discharge of the functions of the office. The office is in dire need of new pool vehicles for effective and efficient discharge of its constitutional duties.

OFFICE FURNITURE

We also hope that necessary furniture and fittings will be provided for effective functioning of the office.

DISCLOSURE NOTE OF COVID-19 RESPONSE ACTIVITIES ON RECURRENT AND CAPITAL EXPENDITURES FOR THE YEAR 2021

BREAKDOWN OF BUDGETARY PROVISION AND ACTUAL EXPENDITURE FOR COVID-19 RESPONSE

To mitigate against the effect of the COVID-19 pandemic, the State makes provision in her amended budget for COVID-19 responsive Recurrent and Capital Expenditures for year 2021 as follows:

S/No.	Expenditures	Approved Budgeted Amount
1.	Recurrent Expenditure	721,906,700.00
2.	Capital Expenditure	7,670,158,667.00
	Total	8,392,065,367.00

Actual Expenditures incurred for Covid-19 during the financial year 2021 are:

S/No.	Expenditure	Actual Expenditure
1.	Recurrent Expenditure	859,609,530.09
2.	Capital Expenditure	4,220,728,530.96
	Total	5,080,338,061.05

This is further broken down to sectors as follows:

S/No.	DETAIL	Actual Amount
1.	RECURRENT EXPENDITURE	
	Administrative Sector	276,484,883.64
	Social Sector	583,124,646.45
	Total	859,609,530.09
2.	CAPITAL EXPENDITURE	
	Administration Sector	239,000,000.00
	Economic Sector	3,475,291,065.32
	Social Sector	522,925,672.09
	Total	4,220,728,530.96

The Covid-19 expenditure figure has been aggregated in the cash flow statement under the recurrent expenditure (Overhead cost note 49i) and capital expenditure (Purchase/Construction/Rehabilitation and Purchase of Intangible assets note 49m and 49n). To this effect, additional disclosure note is provided below:

DISCLOSURE NOTE FOR COVID-19 EXPENDITURE IN THE CASH FLOW STATEMENT

	NOTE 49i	
	ACTUAL	REVISED BUDGET 2021
OVERHEAD COST	22,689,197,704.01	30,655,494,441.00

The actual and budgeted figures for the Covid-19 recurrent expenditure aggregated under the overhead cost (note 49i) and their respective sectors are as stated below:

RECURRENT EXPENDITURES

DETAILS	ACTUAL 2021	APPROVED BUDGET 2021	REVIISED BUDGET 2021
Administrative Sector	276,484,883.64	237,000,000.00	277,500,000.00
Social Sector	583,124,646.45	484,906,700.00	684,906,700.00
Total	859,609,530.09	721,906,700.00	962,406,700.00

The concerned MDAs under the above stated recurrent expenditure for covid-19 are as follows

DETAILS	ACTUAL 2021	APPROVED BUDGET 2021	REVISED BUDGET 2021
Head of Service	276,484,883.64	237,000,000.00	277,500,000.00

Kwara State

DISCLOSURE NOTE IN STATE AUDITED FINANCIAL STATEMENTS FOR 2021

KWARA State participated in the World Bank assisted States Fiscal Transparency, Accountability and Sustainability Program for Results (SFTAS PforR) having met the Eligibility Criteria for 2021. The amount of Grant earned is determined by Disbursement Linked Results achieved by the State as defined in Subsidiary Grant Agreement dated xx-xx-xxxx. The achievement of performance by the State is verified by an Independent Verification Agent. The Program Expenditure Framework for SFTAS Program comprises expenditures incurred in the following budget lines:

	2021			2020			2019			2018		
	Personnel	Overheads	Total	Personnel	Overheads	Total	Personnel	Overheads	Total	Personnel	Overheads	Total

NOTES TO THE FINANCIAL STATEMENTS

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. General information

Kwara State – a local name derived from the Niger River. The State of Harmony as it is fondly called on account of the peaceful relations that exists among its multicultural and diverse population of over 2.5 million people. Kwara State’s peaceful population, abundant natural resources, well-developed infrastructure and proactive investment-attraction policies have made it an attractive destination for investors. Kwara State Government (KWSG’s) principal activities are the provision of social, infrastructure, educational, housing, justice, transport, agricultural, health, emergency and waste management services among many others. The State’s registered office is located at Ahmadu Bello Way, GRA Ilorin, Nigeria.

2.1 Statement of compliance with IPSAS and transitional explanations

The need for the development of unified accounting standards all over the globe and the quest to know the extent of IPSAS adoption and implementation in Nigeria necessitated this study. Commercial organizations all over the world are adopting International Financial Reporting Standards (IFRS), and governments are implementing International Public Sector Accounting Standards (IPSAS). With the exception of Government Business Enterprises, public sector accounting is governed by international Public Sector Accounting Standards. In response to demands for greater government financial accountability and transparency, IPSAS is currently at the center of a global movement in government accounting. The Federal Executive Council of Nigeria authorized its adoption in July 2010 and it became fully adopted in January 2016, but each of Nigeria's 36 independent states was required to decide its own implementation date. As a result, the Federation Account Allocation Committee (FAAC) formed a sub-committee in June 2011 to develop a roadmap for IPSAS adoption in the three tiers of government. Conclusively, it was noted that the implementation is aimed at strengthening the Country’s accounting and financial reporting framework in consonance with global standards.

The financial statements have been prepared in accordance with accrual basis International Public Sector Accounting Standards (IPSASs). IPSAS 33 (First Time Adoption of Accrual Basis IPSAS) allows Kwara State Government a period of up to three years to recognize and/or measure certain assets and/or liabilities. The Government views the exercise of identifying and measuring legacy assets as very strategic. Hence Kwara State Government has chosen to be diligent in its approach and consequently require more time to fully accomplish the exercise. Based on the progress made so far, it is expected that the exercise would be concluded shortly.

In its transition to accrual basis IPSASs, Kwara State Government took advantage of this transitional exemption for its yet-to-be-valued and yet-to-be-recognized assets and liabilities. Coordinated efforts are currently being made to establish fair value assessment of all immovable assets controlled by the State. This is to be achieved, in part, through the constitution of a technical committee of relevant and experienced professionals from the Ministry of Works and other Infrastructure related MDAs.

As a result of the foregoing, Kwara State Government is unable to make an explicit and unreserved statement of compliance with accrual basis IPSAS in preparing its transitional IPSAS financial statements for this reporting period.

The State financial statements are presented in Nigerian Naira, which is the functional and reporting currency and all values are rounded to the nearest thousand except where the thousand sign (N'000) is not indicated. The accounting policies have been consistently applied to all the years presented.

The State financial statements are prepared on an accrual basis, except for the historical Plant, Property and Equipment (PPE) which efforts are currently being made to establish fair value of all assets controlled by the state.

2.2 Summary of significant accounting policies

a) Consolidation

Controlled entities

The controlled entities are all those entities over which Kwara State Government has the power to govern their financial and operating policies. The entities are all under Harmony Holdings Limited (State investment & Property Investment Company, Kwara State Transport). These controlled entities are fully consolidated from the date in which control is secured by Kwara State Government. They are de-consolidated from the date that control ceases. Inter-state transactions, balances and unrealized gains and losses on transactions between members of the State are eliminated in full. The accounting policies of the controlled entities are consistent with the policies adopted by Kwara State Government.

b) Interest in joint venture and associates

Where the State has an interest in a joint venture whereby the venturers have a binding arrangement that establishes joint control over the economic activities of the entity, the State realizes its interest in the joint venture using the equity method of consolidation. Under the equity method, on initial recognition the investment in an associate or a joint venture is realized at cost and the carrying amount is increased or decreased to recognize the investor's share of the surplus or deficit of the investee after the date of acquisition. The investor's share of the investee's surplus or deficit is recognized in the investor's surplus or

deficit. Distributions received from an investee reduce the carrying amount of the investment. Adjustments to the carrying amount may also be necessary for changes in the investor's proportionate interest in the investee arising from changes in the investee's equity that have not been recognized in the investee's surplus or deficit. Such changes include those arising from the revaluation of property, plant and equipment and from foreign exchange translation differences. The investor's share of those changes is realized in net assets/equity of the investor.

Kwara State Government has neither associates nor joint ventures as at 31st December, 2021.

c) Revenue recognition

Revenue from non-exchange transactions Fees, taxes and fines

The State recognizes revenues from fees, taxes and fines when the event occurs, and the asset recognition criteria are met. To the extent that there is a related condition attached that would give rise to a liability to repay the amount, deferred income is realized instead of revenue. Other non-exchange revenues are recognized when it is probable that the future economic benefits or service potential associated with the asset will flow to the state and the fair value of the asset can be measured accurately.

Control of an asset: This arises when the state can use or otherwise benefit from the asset in pursuit of its objectives and can exclude or otherwise regulate the access of others to that benefit.

Exchange transactions are transactions in which one state receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of cash, goods, services, or use of assets) to another state in exchange.

Expenses paid through the tax system are amounts that are available to beneficiaries regardless of whether or not they pay taxes.

Fines are economic benefits or service potential received or receivable by public sector entities, as determined by a court or other law enforcement body, as a consequence of the breach of laws or regulations.

Restrictions on transferred assets are stipulations that limit or direct the purposes for which a transferred asset may be used, but do not specify that future economic benefits or service potential is required to be returned to the transferor if not deployed as specified.

Stipulations on transferred assets are terms in laws or regulation, or a binding arrangement, imposed upon the use of a transferred asset by entities external to the reporting entity.

Tax expenditures are preferential provisions of the tax law that provide certain taxpayers with concessions that are not available to others.

The **taxable event** is the event that the government, legislature or other authority has determined will be subject to taxation.

Taxes are economic benefits or service potential compulsorily paid or payable to public sector entities, in accordance with laws and or regulations, established to provide revenue to the government. Taxes do not include fines or other penalties imposed for breaches of the law.

Transfers are inflows of future economic benefits or service potential from non-exchange transactions, other than taxes.

d) Current versus non-current classification

Kwara State Government presents assets and liabilities in the statement of financial position based on current/non-current classification. *An asset is current when it is:*

- Expected to be realized or intended to be sold or consumed in the normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. The State classifies all other liabilities as non-current.

e) Property, Plant and Equipment

Kwara State government is currently making effort to determine the cost of their PPE assets as at the date of adoption of IPSAS. Kwara state government would be recognizing its PPE on a class-by-class basis. This is to be achieved, in part, through the constitution of a

technical committee of relevant and experienced professionals from the Ministry of Works and other Infrastructure related MDAs.

However, some assets procure by the state during the 2021 financial period where capture and registered.

All property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses. Historical Cost includes expenditure that is directly attributable to the acquisition and construction of the assets. When significant parts of property, plant and equipment are required to be replaced at intervals, the State recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major overhaul is performed or any significant repair or maintenance, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in surplus or deficit as incurred. Where an asset is acquired in a non-exchange transaction for nil or nominal consideration the asset is initially measured at its fair value.

Finance cost attributable to amounts borrowed by Kwara state government to fund the acquisition of any property plant and equipment are expensed immediately they are incurred.

Depreciation is charged systematically over the asset's useful life. The depreciation method must reflect the pattern in which the asset's future economic benefits or service potential is expected to be consumed by the entity. The residual value must be reviewed at least annually and shall equal the amount the entity would receive currently if the asset were already of the age and condition expected at the end of its useful life. If operation of an item of property, plant and equipment (for example, an aircraft) requires regular major inspections, when each major inspection is performed, its cost is recognized in the carrying amount of the asset as a replacement, if the recognition criteria are satisfied. If expectations differ from previous estimates, the change must be accounted for as a change in an accounting estimate in accordance with IPSAS 3.

Assets under construction are not depreciated as these assets are not in use, Land and buildings are separable assets and are accounted for separately, even when they are acquired together. Land normally has an unlimited useful life, and therefore is not depreciated. All other asset classes are depreciated and depreciation on assets is charged on a straight-line basis over the useful life of the asset. Depreciation is charged at rates calculated to allocate the cost or valuation of the asset less any estimated residual value over its remaining useful life:

Buildings	45 - 55 years
Infrastructure assets	20 – 22 years
Plant & Machinery	5 - 12 years
Furniture & Fittings	5 - 7 years
Vehicles	5 – 7 years
Office & Other Equipment	4 – 5 years

The assets' residual values and useful lives are reviewed, and adjusted prospectively, if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount, or recoverable service amount, if the asset's carrying amount is greater than its estimated recoverable amount or recoverable service amount.

The State derecognizes items of property, plant and equipment and/or any significant part of an asset upon disposal or when no future economic benefits or service potential is expected from its continuing use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the surplus or deficit when the asset is derecognized.

f) *Investment property*

There are several circumstances in which public sector entities may hold property to earn rental and for capital appreciation. Other public sector entities may also hold property for rentals or capital appreciation and use the cash generated to finance their other (service delivery) activities. For example, a university or local government may own a building for the purpose of leasing on a commercial basis to external parties to generate funds, rather than to produce or supply goods and services. This property would also meet the definition of investment property.

Investment property is held to earn rentals or for capital appreciation or both. Therefore, investment property generates cash flows largely independently of the other assets held by an entity. This distinguishes investment property from other land or buildings controlled by public sector entities, including owner-occupied property. The production or supply of goods or services (or the use of property for administrative purposes) can also generate cash flows. For example, public sector entities may use a building to provide goods and services to recipients in return for full or partial cost recovery. However, the building is held to facilitate the production of goods and services and the cash flows are attributable not merely to the building, but also to other assets used in the production or supply process.

International Public Sector Accounting Standard IPSAS17 Property, Plant and Equipment applies to owner-occupied property.

Investment properties are measured initially at cost, including transaction costs. The carrying amount includes the replacement cost of components of an existing investment property at the time the cost is incurred if the recognition criteria are met and excludes the costs of day-to-day maintenance of an investment property. Investment properties primarily comprise irrigation assets and other rental yielding buildings.

Investment property acquired through a non-exchange transaction is measured at its fair value at the date of acquisition. After initial recognition, investment properties are measured using the cost model and are depreciated over a 40-year period.

Investment properties are derecognized either when they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit or service potential is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the surplus or deficit in the period of derecognition.

Transfers are made to or from investment property only when there is a change in use.

g) Leases

State as a lessee

Finance leases are leases that transfer substantially all of the risks and benefits incidental to ownership of the leased item to the State. Assets held under a finance lease are capitalized at the commencement of the lease at the fair value of the leased property or, if lower, at the present value.

of the future minimum lease payments. The State also recognizes the associated lease liability at the inception of the lease. The liability recognized is measured as the present value of the future minimum lease payments at initial recognition.

Subsequent to initial recognition, lease payments are allocated between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance costs in surplus or deficit.

An asset held under a finance lease is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the State will obtain ownership of the asset by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating leases are leases that do not transfer substantially all the risks and benefits incidental to ownership of the leased item to the State. Operating lease payments are recognized as an operating expense in surplus or deficit on a straight-line basis over the lease term.

State as a lessor

Leases in which the State does not transfer substantially all the risks and benefits of ownership of an asset are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term.

Rent received from an operating lease is recognized as income on a straight-line basis over the lease term. Contingent rents are recognized as revenue in the period in which they are earned.

h) Intangible assets

Intangible assets acquired separately are initially recognized at cost. The cost of intangible assets acquired in a non-exchange transaction is their fair value at the date of the exchange. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in surplus or deficit in the period in which the expenditure is incurred.

The useful life of the intangible assets is assessed as either finite or indefinite. Intangible assets with a finite life are amortized over its useful life:

Software	10 - 15 years
-----------------	----------------------

Intangible assets with a finite useful life are assessed for impairment whenever there is an indication that the asset may be impaired. Intangible assets with indefinite useful life are tested for impairment at least once year regardless of impairment indicators.

The amortization period and the amortization method, for an intangible asset with a finite useful life, are reviewed at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on an intangible asset with a finite life is recognized in surplus or deficit as the expense category that is consistent with the nature of the intangible asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the surplus or deficit when the asset is derecognized.

Research and development costs

The State expenses research costs as incurred. Development costs on an individual project are recognized as intangible assets when the State can demonstrate:

- The technical feasibility of completing the asset so that the asset will be available for use or sale
- Its intention to complete and its ability to use or sell the asset
- How the asset will generate future economic benefits or service potential
- The availability of resources to complete the asset
- The ability to measure accurately the expenditure during development

Following initial recognition of an asset, the asset is carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for use. It is amortized over the period of expected future benefit. During the period of development, the asset is tested for impairment annually with any impairment losses recognized immediately in surplus or deficit.

i) Impairment of non-financial assets

Impairment of cash-generating assets

At each reporting date, the State assesses whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the State estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets.

Where the carrying amount of an asset or the cash-generating unit (CGU) exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell,

recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses of continuing operations are recognized in the statement of financial performance in those expense categories consistent with the nature of the impaired asset.

Impairment of non-cash-generating assets

The State assesses at each reporting date whether there is an indication that a non-cash-generating asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the State estimates the asset's recoverable service amount. An asset's recoverable service amount is the higher of the non-cash-generating asset's fair value less costs to sell and its value in use.

Where the carrying amount of an asset exceeds its recoverable service amount, the asset is considered impaired and is written down to its recoverable service amount.

In assessing value in use, the State has adopted the depreciation replacement cost approach. Under this approach, the present value of the remaining service potential of an asset is determined as the depreciated replacement cost of the asset. The depreciated replacement cost is measured as the reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated on the basis of such cost, to reflect the already consumed or expired service potential of the asset.

In determining fair value less costs to sell, the price of the assets in a binding agreement in an arm's length transaction, adjusted for incremental costs that would be directly attributed to the disposal of the asset is used. If there is no binding agreement, but the asset is traded on an active market, fair value less cost to sell is the asset's market price less cost of disposal. If there is no binding sale agreement or active market for an asset, the State determines fair value less cost to sell based on the best available information.

For each asset, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the State estimates the asset's recoverable service amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable service amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable service amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in surplus or deficit.

j) Financial instruments Financial assets

Initial recognition and measurement

Financial assets within the scope of IPSAS 29 Financial Instruments: Recognition and Measurement are classified as financial assets at fair value through surplus or deficit, loans and receivables, held-to-maturity investments or available-for-sale financial assets, as appropriate. The State determines the classification of its financial assets at initial recognition.

The State's financial assets include: cash and short-term deposits; trade and other receivables; loans and other receivables; quoted and unquoted financial instruments.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification.

Financial assets at fair value through surplus or deficit

Financial assets at fair value through surplus or deficit include financial assets held for trading and financial assets designated upon initial recognition at fair value through surplus and deficit. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets at fair value through surplus or deficit are carried in the statement of financial position at fair value with changes in fair value recognized in surplus or deficit. Kwara State Government does not have any 'financial assets at fair value through surplus or deficit' as at 31st DECEMBER 2021.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. Losses arising from impairment are recognized in the surplus or deficit. Kwara State Government does not have any 'loans and receivables' as at 31st DECEMBER 2021.

Held-to-maturity

Non-derivative financial assets with fixed or determinable payments and fixed maturities are classified as held to maturity when the State has the positive intention and ability to hold it to maturity. After initial measurement, held-to-maturity investments are measured at

amortized cost using the effective interest method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The losses arising from impairment are recognized in surplus or deficit. Kwara State Government does not have any 'held to maturity' as 31st DECEMBER 2021.

Available-for-sale financial assets

The State classifies available-for-sale financial assets as non-derivative financial assets that are designated as available for sale or are not classified as loans and receivables, held-to-maturity or financial assets at fair value through surplus or deficit.

After initial measurement, available-for-sale financial investments are subsequently measured at fair value with gains or losses recognized directly in net assets through the statement of changes in net assets until the financial asset is derecognized, at which time the cumulative gain or loss is recognized in surplus or deficit.

Derecognition

The State derecognizes a financial asset or, where applicable, a part of a financial asset or part of a group of similar financial assets when:

- The rights to receive cash flows from the asset have expired or is waived
- The State has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party; and either: (a) the State has transferred substantially all the risks and rewards of the asset; or (b) the State has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

The State assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be accurately estimated. Evidence of impairment may include the following indicators:

- The debtors or a group of debtors are experiencing significant financial difficulty
- Default or delinquency in interest or principal payments

- The probability that debtors will enter bankruptcy or other financial reorganization
- Observable data indicates a measurable decrease in estimated future cash flows (e.g., changes in arrears or economic conditions that correlate with defaults)

Financial assets carried at amortized cost

For financial assets carried at amortized cost, the State first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the State determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the assets carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate.

The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognized in surplus or deficit. Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realized or transferred to the State. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If a future write-off is later recovered, the recovery is credited to finance costs in surplus or deficit.

Available-for-sale financial assets

For available-for-sale financial assets, the State assesses at each reporting date whether there is objective evidence that an investment or a group of investments is impaired.

In the case of financial assets classified as available-for-sale, objective evidence would include a significant or prolonged decline in the fair value of the investment below its cost. 'Significant' is evaluated against the original cost of the investment and 'prolonged' against the period in which the fair value was below its original cost. Where there is evidence of

impairment, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognized in the surplus or deficit – is removed from the reserve in net assets and recognized in surplus or deficit.

In the case of debt instruments classified as available-for-sale, impairment is assessed based on the same criteria as financial assets carried at amortized cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortized cost and the current fair value, less any impairment loss on that investment previously recognized in surplus or deficit.

Financial liabilities

Initial recognition and measurement

Financial liabilities within the scope of IPSAS 29 are classified as financial liabilities at fair value through surplus or deficit or loans and borrowings, as appropriate. The State determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, plus directly attributable transaction costs. The State's financial liabilities include trade and other payables, bank overdrafts, loans and borrowings, financial guarantee contracts.

Subsequent measurement

The measurement of financial liabilities depends on their classification. Financial liabilities at fair value through surplus or deficit

Financial liabilities at fair value through surplus or deficit include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through surplus or deficit.

Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term. This category includes derivative financial instruments entered into by the State that are not designated as hedging instruments in hedge relationships as defined by IPSAS 29.

Gains or losses on liabilities held for trading are recognized in surplus or deficit.

Loans and borrowing

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in

surplus or deficit when the liabilities are derecognized as well as through the effective interest method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in surplus or deficit.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the State statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Fair value of financial instruments

The fair value of financial instruments that are traded in active markets at each reporting date is determined by reference to quoted market prices or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs.

k) Cash and cash equivalents

Cash and cash equivalents comprise of cash on hand and cash at bank, deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. For the purpose of the State's statement of cash flows, cash and cash equivalents consist of cash and short-term deposits as defined above, net of outstanding bank overdrafts.

l) Inventories

Inventory is measured at cost upon initial acquisition. To the extent that inventory was received through non-exchange transactions (for no cost or for a nominal cost), the cost of the inventory is its fair value at the date of acquisition.

Costs incurred in bringing each product to its present location and condition are accounted for, as follows:

- Raw materials: purchase cost
- Finished goods and work in progress: cost of direct materials and labor and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs

After initial recognition, inventory is measured at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of operations, less the estimated costs of completion and the estimated costs necessary to make the sale, exchange, or distribution.

Inventories are recognized as an expense when deployed for utilization or consumption in the ordinary course of operations of the State.

m) Provisions

Provisions are recognized when the State has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Where the State expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset only when the reimbursement is virtually certain.

The expense relating to any provision is presented in the statement of financial performance net of any reimbursement. The provisions primarily arise from ongoing litigations and from long-term environmental obligations for which there is present obligations, outflow is probable and reliable estimates could be made.

Restoration / Decommissioning liability

Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognized as part of the cost of that particular asset. The cash flows are discounted at a current pre-tax rate that reflects the risks specific to the restoration/decommissioning liability. The unwinding of the discount is expensed as incurred and recognized in the statement of financial performance as a finance

cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.

Contingent liabilities

The State does not recognize a contingent liability, but discloses details of any contingencies in the notes to the financial statements, unless the possibility of an outflow of resources embodying economic benefits or service potential is remote.

Contingent assets

The State does not recognize a contingent asset, but discloses details of a probable asset whose existence is contingent on the occurrence or non- occurrence of one or more uncertain future events not wholly within the control of the State in the notes to the financial statements. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured accurately, the asset and the related revenue are recognized in the financial statements of the period in which the change occurs.

n) Employee benefits Retirement benefit plans

The State provides retirement benefits for its employees and political officer holders.

Defined contribution plans are post-employment benefit plans under which an state pays fixed contributions into a separate entity (a fund), and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are charged against income in the year in which they become payable.

Defined benefit plans are post-employment benefit plans other than defined-contribution plans. The defined-benefit funds are actuarially valued based on the projected unit credit method basis. Deficits identified are recovered through lump sum payments or increased future contributions on proportional basis. The contributions and lump sum payments reduce the post-employment benefit obligation.

Short and long-term employee benefits

Short-term employee benefits (payable within 12 months) shall be recognized as an expense in the period in which the employee renders the service. The cost of all short-term employee benefits, such as leave pay, is recognized during the period in which the employee renders

the related service. The State recognizes the expected cost of performance bonuses only when the State has a present legal or constructive obligation to make such payment, and a reliable estimate can be made.

The State provides long-term incentives to eligible employees, payable on completion of years of employment. The State's liability is based on an actuarial valuation. The projected unit credit method has been used to value the obligation. Actuarial gains and losses on the long-term incentives are fully accounted for in the statement of financial performance.

o) Changes in accounting policies and estimates

Kwara state is currently required to make a change in accounting policy only if it is required by an IPSAS, or it results in reliable and more relevant information. If a change in accounting policy is required by an IPSAS, follow that pronouncement's transition requirements. If none are specified, or if the change is voluntary, Kwara state would apply the new accounting policy retrospectively by restating prior periods. If restatement is impracticable, include the cumulative effect of the change in net assets/equity. If the cumulative effect cannot be determined, Kwara state would apply the new policy prospectively.

Changes in accounting estimates (for example, change in useful life of an asset) are accounted for in the current period, or the current and future periods (no restatement). In the situation a distinction between a change in accounting policy and a change in accounting estimate is unclear, the change is treated as a change in an accounting estimate.

All material prior-period errors shall be corrected retrospectively in the first set of financial statements authorised for issue after their discovery, by restating comparative prior-period amounts or, if the error occurred before the earliest period presented, by restating the opening statement of financial position

p) Foreign currency transactions

Kwara state records using the spot exchange rate for initial recognition and measurement at the date of the transaction.

– At subsequent reporting dates, Kwara state uses:

- Closing rate for monetary items
- Transaction-date exchange rates for nonmonetary items carried at historical cost
- Valuation-date exchange rates for nonmonetary items that are carried at fair value

Exchange differences arising on settlement of monetary items and on translation of monetary items at a rate different from when initially recognized are included in surplus or

deficit, with one exception: exchange differences arising from monetary items that form part of the reporting entity's net investment in a foreign operation are recognized in the consolidated financial statements that include the foreign operation in a separate component of net assets/equity; these differences will be recognized in the surplus or deficit on disposal of the net investment. The results and financial position of the states's foreign operations whose functional currency is not the currency of a hyperinflationary economy are translated into a different presentation currency using the following procedures:

- Assets and liabilities for each statement of financial position presented (including comparatives) are translated at the closing rate at the date of that statement of financial position.
- Revenue and expenses of each statement of financial performance (including comparatives) are translated at exchange rates at the dates of the transactions.
- All resulting exchange differences are recognized as a separate component of net assets/equity.

q) Related parties

The State regards a related party as a person or an state with the ability to exert control individually or jointly, or to exercise significant influence over the State, or vice versa. Members of key management are regarded as related parties and comprise the State Executive Committee Members and Heads of Ministries, Departments and Agencies.

r) Borrowing costs

Borrowing costs are capitalized against qualifying assets as part of property, plant and equipment.

Such borrowing costs are capitalized over the period during which the asset is being acquired or constructed and borrowings have been incurred. Capitalization ceases when construction of the asset is complete. Further borrowing costs are charged to the statement of financial performance.

s) Service concession arrangements

The State analyses all aspects of service concession arrangements that it enters into in determining the appropriate accounting treatment and disclosure requirements. In particular, where a private party contributes an asset to the arrangement, the State recognizes that asset when, and only when, it controls or regulates the services the operator must provide together with the asset, to whom it must provide them, and at what price. In the case of assets other than 'whole-of-life' assets, it controls, through ownership,

beneficial entitlement or otherwise – any significant residual interest in the asset at the end of the arrangement. Any assets so recognized are measured at their fair value. To the extent that an asset has been recognized, the State also recognizes a corresponding liability, adjusted by a cash consideration paid or received.

t) Budget information

The State was able to prepare accrual basis budget and all planned costs and income are presented in a single statement to determine the needs of the State. As a result of the adoption of the accrual basis for budgeting purposes, there would be no basis, timing or state differences that would require reconciliation between the actual comparable amounts and the amounts presented as a separate additional financial statement in the statement of comparison of budget and actual amounts.

u) Significant judgments and sources of estimation uncertainty

The preparation of the State's financial statements in conformity with IPSAS requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Judgments

In the process of applying the State's accounting policies, management has made judgments, which have the most significant effect on the amounts recognized in the State financial statements.

Operating lease commitments – State as lessor

The State has entered into property leases of certain of its properties. The State has determined, based on an evaluation of the terms and conditions of the arrangements, (such as the lease term not constituting a substantial portion of the economic life of the commercial property) that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

Estimates and assumptions

In accordance with IPSAS 1 P. 140, the key assumptions concerning the future and other key sources of estimating uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The State based its assumptions and estimates on

parameters available when the State financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the State. Such changes are reflected in the assumptions when they occur.

Useful lives and residual values

The useful lives and residual values of assets are assessed using the following indicators to inform potential future use and value from disposal:

- The condition of the asset based on the assessment of experts employed by the State
- The nature of the asset, its susceptibility and adaptability to changes in technology and processes
- The nature of the processes in which the asset is deployed
- Availability of funding to replace the asset
- Changes in the market in relation to the asset

Impairment of non-financial assets – cash-generating assets

The recoverable amounts of cash-generating units and individual assets have been determined based on the higher of value-in-use calculations and fair values less costs to sell. These calculations require the use of estimates and assumptions. It is reasonably possible that the assumptions may change, which may then impact management's estimations and require a material adjustment to the carrying value of tangible assets.

The State reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. Cash-generating assets are stated at the lowest level for which identifiable cash flows are largely independent of cash flows of other assets and liabilities. If there are indications that impairment may have occurred, estimates of expected future cash flows are prepared for each group of assets. Expected future cash flows used to determine the value in use of tangible assets are inherently uncertain and could materially change over time.

Impairment of non-financial assets – cash generating assets

The State reviews and tests the carrying value of non-cash-generating assets when events or changes in circumstances suggest that there may be a reduction in the future service potential that can reasonably be expected to be derived from the asset. Where indicators of possible impairment are present, the State undertakes impairment tests, which require the

determination of the fair value of the asset and its recoverable service amount. The estimation of these inputs into the calculation relies on the use of estimates and assumptions. Any subsequent changes to the factors supporting these estimates and assumptions may have an impact on the reported carrying amount of the related asset.

Fair value estimation – financial instruments

Where the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be derived from active markets, their fair value is determined using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, judgment is required in establishing fair values. Judgment includes the consideration of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Provisions

Provisions were raised and management determined an estimate based on the information available.

Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the reporting date, and are discounted to present value where the effect is material.

Provision is made for the estimated cost to be incurred on the long-term environmental obligations, comprising expenditure on pollution control and closure over the estimated life of the landfill. The provision is based on the advice and judgment of qualified engineers.

The increase in the restoration provision due to passage of time is recognized as finance cost in the statement of financial performance.

The cost of ongoing programs to prevent and control pollution and rehabilitate the environment is recognized as an expense when incurred.

Held-to-maturity investments and loans and receivables

The State assesses its loans and receivables and its held-to-maturity investments at the end of each reporting period. In determining whether an impairment loss should be recorded in surplus or deficit, the State evaluates the indicators present in the market to determine if those indicators are indicative of impairment in its loans and receivables or held-to-maturity investments.

Where specific impairments have not been identified the impairment for receivables, held-to-maturity investments and loans and receivables is calculated on a portfolio basis, based

on historical loss ratios, adjusted for national and industry-specific economic conditions and other indicators present at the reporting date that correlate with defaults on the portfolio. These annual loss ratios are applied to loan balances in the portfolio and scaled to the estimated loss emergence period.

These are transactions in which Kwara State Government receives consideration from and gives approximately equal value in exchange for goods and services or use of asset.

Revenue from sale of goods and services is recognized when the significant risk and rewards of ownership of the goods are transferred to the buyer; the goods and services have been delivered when the revenue can be reliably measured and it is probable that the economic value will flow to the Kwara State Government.

Interest is recognized on a time proportion basis that takes into account the effective yield on the asset; the amount of revenue can be measured reliably; and it is probable that the economic benefits or service potential associated with the transaction will flow to the Kwara State Government.

Revenue from the management of facilities, assets, or services is recognized over the term of the contract as the management services are provided; the amount of revenue can be measured reliably; and it is probable that the economic benefits or service potential associated with the transaction will flow to the State. Revenue from interest, royalties and dividends of similar distribution shall be recognized as they are earned in accordance with the substance of the relevant agreement; the amount of revenue can be measured reliably; and it is probable that the economic benefits or service potential associated with the transaction will flow to the State.

Rental income from government buildings is recognized as earned in accordance with the terms of the tenancy agreement. This is in addition to its measurability and derivation of economic benefits.

The Kwara State Government will recognize a grant at the Point of receipt of the grant or enforceable claim to receive it; that is, when the amount is pledged and a memorandum of understanding is signed.

The Kwara State Government will recognize a grant at the point where future economic benefits or service potential flows to the state and the fair value can be measured reliably; when the amount is pledged and the memorandum of understanding signed.

Where aid/grant is received in form of assets, measurement will be based on the value attached to the Assets by the Donor or else the fair value of the Assets will be determined by the Kwara State Government, as at the date of acquisition.

Salaries & Wages are employee benefits which are establishment cost for direct and indirect employees, including political office holders. In Kwara State, all employee benefits are consolidated. Salary is a base amount from which other regular allowances are determined. Entertainment allowance is aimed at catering for work related entertainment of internal and external customers. Furniture allowance is meant to augment the cost of furnishing official residences of government appointees, customarily paid once in four years subject to approval. Hazard allowance is a special allowance paid to employees who work in hazardous environment, for example, hospitals, laboratories, fire services etc. Housing allowance is paid to employees to augment rental charges for employees that do not enjoy government quarters. Leave allowance is paid to employees to defray cost of travelling to leave destinations. Legislative allowance is a special allowance paid to staff working with legislators. Meal allowance is meal subsidy paid to all employees. Medical allowance is aimed at subsidizing cost of medication and hospital services etc.

Pension and Gratuity is a deferred benefit. Employees earn their pension throughout their career in the public sector but benefits will only start to be paid as pension upon occurrence of one of the pre-defined events such as retirement or death in service. A close look at the Social Benefits shows that the Statement of Financial Performance (**Note 9**) reflects a higher figure than the Consolidated Statement of Cash flow (**Note 49h**). The difference is as a result of accrued gratuity incurred by the state in the year 2021 but which payment was not completed within the period ended 31st December, 2021.

NOTE 13B

SOCIAL BENEFITS	
GRATUITY PAYMENT FOR YEAR 2021	1,200,000,000.00

Overhead costs are operating expenses associated with running the states and can't be linked to creating services. These are the expenses incurred to stay in business, regardless of its success level. Also, the cost can directly be attributed to generating revenue. The financial statements are prepared on Accrual basis except for the statement of cash flow, this could lead to differences. Loan payments was technically included in overhead expenses for the awareness of these expenses, most especially because budgeting, managing of cash flow, and calculating of overhead rate.

Public debt charges are interest and other expenses incurred by Kwara State Government in connection with borrowing of funds for qualifying assets. Kwara State Government has adopted the benchmark treatment, under which public debt charges are recognized as expenses in the period which they occurred regardless of how debts are applied. Public debt charges include - the interest on unmatured debt and on other accounts, the amortization of premiums and discounts on unmatured debt, the servicing costs and costs of issuing new borrowings and all other cost associated with obtaining the debt.

A close look at the Public Debts Charges on Statement of Financial Performance (Note 22) and Finance Cost on Consolidated Statement of Cash flow (Note 49L) shows two different amount, it is as a result of non-cash repayment of state borrowings which is deducted from the state share of FAAC.

Cash includes cash on hand and demand deposits. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value. Investments normally only qualify as cash equivalent if they have a short maturity of three months or less from the date of acquisition. Financial instruments can only be included if they are in substance cash equivalents, eg debt investments with fixed redemption dates that are acquired within three months of their maturity.

The assets figures has clearly show that the State physical asset has been grossly under valued, this is responsible for the negative net asset in the statement of financial position. The State is currently making efforts to establish fair value of all historical assets controlled by the state. Once this exercise is completed, a more detailed asset register and its associated accumulated depreciation as well as depreciation policy would be reported.

	Total Intangible Assets	22,434,324,521.18	4,148,060,579.09

Intangible assets are identifiable non- monetary Assets without physical substance. In other words, they are assets that can generate economic benefits but cannot be seen physically or felt and can either be purchased or internally generated.

Intangible assets under Kwara state is typically made up of Goodwill, Computer Software, Copyrights, Trade Marks, Acquired Import Quotas, Broadcast Rights, Patents and Research and Development (R&D). Research costs are to be recognised as expenses when they are incurred, except in cases where in the research phase of an internal project, the state can demonstrate that an intangible asset exists that will generate probable future economic benefits or service potentials; while the development costs/phase are required to be recognised as an asset except otherwise assessed.

Bad debt is the portion of receivables that can no longer be collected, typically from accounts receivable or loans. The Commercial Loans are loans sourced from Federal Government (Restructured Commercial loan taken over by FGN, Salary bailout, FGN bridging loan facility) ECA loan facility of Guaranty Trust Bank and Sterling Bank. The loan repayment is being deducted from the FAAC Allocations. Provision for Bad Debt is an estimation that the loan may need to be written off at a given period if deduction is disallowed.
