## **PREFACE**

The Second quarter of 2020 witnessed very anxious moments in the Socio-Political and Economic life due to the emergence of the Corona Virus (COVID-19) in the globe. At the Inception of the Year, we heard of the COVID-19 in the other Climes without having a full import of the virus in the economy; however, by the end of the first quarter there was a complete lockdown of the polity which adversely affected the economy and by extension the budget Implementation.

The Q2 budget Implementation was influenced by the COVID-19 response which diverted the attention of most expenditures to containing the COVID-19. There was an urgent need to reappraise our budget in respect to the Current realities which the Pandemic has brought. There was a call by the State Government for a review of the budget to bring it down to the level of our Revenue expectation which has started to show a very unhealthy picture. Despite the fall in the oil prices, the economy was almost short down due to the lockdown that was witnessed in the globe. Most if not all businesses were shut down for over six weeks, no transportation, air, water and Road. Whereas our oil revenue was almost at a zero level, other income sources were non-existence as all the businesses were shut down. This was what necessitated the Federal Government, and the Nigerian Governor's forum to request all the States to revise their 2020 budget downwards to an appreciable level.

Notwithstanding this major shock to the economy, the State Government was upbeat in attending to her Obligations in payment of Salaries and allowances throughout the quarter, while attending to the major COVID-19 response by providing necessary medicaments, and building some Isolation Centres to checkmate the Spread of the Pandemic. Within this Q2 the State upgraded some health facilities in response to the Pandemic as well as provided Palliatives to different organizations and individuals to stave the effect of the COVID-19.

Finally, let me thank our team in the Ministry who continued to provide Service throughout the lockdown and made this report possible.

I wish to acknowledge the Invaluable support of the Accountant General and his Officers in providing the necessary data that formed the basis for this report.

**Ugwu Casmir K.**  
Permanent Secretary  
Ministry of Budget and Planning, Enugu State.

## EXECUTIVE SUMMARY

The year 2020 has seen its fair share of challenge and economic meltdown and this can be anchored on the pandemic ravaging the whole world. The first quarter of the year can be characterized as eventful in terms of budget implementation but it has not been easy in this second quarter as a result of corona virus and nationwide lockdown. That notwithstanding, the government of the state led by His Excellency Rt. Hon. Ifeanyi Ugwuanyi has done and continues to do its bit in making sure that both the capital and recurrent projects budgeted in the states are adequately carried out without interference. It is worthy to note that the state work force had their salaries paid promptly and all other overhead items were equally given adequate attention.

The 2020 Budget Estimate is based on key indicators from State Medium Term Expenditure Framework (MTEF) and Fiscal Strategy Paper (FSP) which is anchored on National Macro-Economic Framework.

On this premise, the budget was predicated on the following benchmarks or economic assumptions:

Crude oil price benchmark	-	US\$57 per barrel
Oil production	-	2.18 million barrels per day
Exchange Rate	-	N305/US\$
GDP growth	-	2.93 percent
Inflation Rate	-	10.81 percent

Knowing that the nation's economic activities revolve around the oil economy, the activities in the oil market has greatly influenced the State earnings in period under review. Also, the pandemic has put a stop to most of the state's economic activities.

## SECOND QUARTER PERFORMANCE

The crude oil price benchmark increased from USD30 per barrel in the first quarter to average USD34 per barrel in the second quarter although still below the year's approved budget benchmark. The quarter also witnessed an increase in oil production while exchange rate remained unchanged at ₦360/USD but above the year's approved budget assumption of N305/USD. Consequently, actual statutory allocation for the State in the 2020 second quarter stood at Nine Billion, Three Hundred and Forty-Nine Million, Five Hundred and Twenty Eight Thousand, Seven Hundred and Forty-Three Naira (₦9,349,528,743.00). The Main IGR available to fund the 2020 budget in the second quarter stood at Four Billion, Three Hundred and Four Million, Eight Hundred and Eighty Thousand, One Hundred and Fifty-Seven Naira (₦4,304,880,157.00) against quarterly budget of Four Billion, Four Hundred and Fifty-Four Million, One Hundred and Eighty-Nine Thousand Naira (₦4,454,189,000.00). It denotes a shortfall of One Hundred and Forty-Nine Million, Three Hundred and Eight Thousand, Eight Hundred and Forty-Three Naira (₦149,308,843.00) or 3.35% when compared with the quarterly budget. The actual Retained Revenue in 2020 second quarter stood at One Billion, One Hundred and Three Million, One Thousand, One Hundred and Eight Naira (₦1,103,001,108.00) indicating a One Billion, Nine Hundred and Seventeen Million, Four Hundred and Thirty-Nine Thousand, Four Hundred and Forty-Five Naira (₦1,917,439,445.00) or 63.48% below the

## 1.0 INTRODUCTION

The 2020 second quarter budget implementation report offers evidence on the realization and utilization of the Enugu State resources between April to June, 2020. The 2020 Approved Budget titled “Budget of Responsive and Accountable Governance” sets out to create an enabling environment for full development of human capital resources, diversified and sustainable State economic growth as well as provision of critical infrastructure in Health, Agriculture, Education, Roads, Electricity, improved security of lives and property etc. The 2020 total revenue (recurrent revenue and capital receipts) projections is anchored on National Macro-Economic Framework indicators of: Crude Oil Price Benchmark – US\$57 per barrel, Oil Production Estimate – 2.18 million barrels per day, Exchange rate – N305/US\$, Real GDP Growth – 2.93 percent and Inflation Rate – 10.81 percent. Within these indicators, the 2020 budget focused on consolidating the 8-Point Development Agenda of Rt. Hon. Ifeanyi Ugwuanyi administration as follows:

1. Poverty Reduction/Wealth Creation
2. Healthy and productive citizens with right attitude, aptitude and values
3. Highly educated and technically ready workforce
4. Youth empowerment/employment
5. Urban/City renewal
6. Peace and Security
7. Responsive, Inclusive and Accountable Governance
8. Fiscal Sustainability and Accountable Governance

The 2020 Budget was also prepared in line with the recommendations of twelve (12) ad hoc Sectoral Committees for stimulation of rapid economic growth and development, advancement of good governance and optimization of Service Delivery in Enugu State.

It may be necessary to point out that revenue from both internally generated, federal allocation and Value Added Tax, performed optimally to an average of about 80% in the 1<sup>st</sup> quarter of 2020. The 2<sup>nd</sup> quarter is expected to showcase the Covid-19 effect and the expected strident drop in crude oil price. The expenditure within the Q1, 2020 was smooth because of the availability of funds from the combination of the IGR and the FAAC. In the 1<sup>st</sup> quarter, whereas the recurrent budget posted an average of 88.60% performance implementation, the capital Budget posted an average of 36.98%. Thus, how the Enugu State Government has fared in the second quarter of 2020 and in the half-year of 2020 is x-rayed in this report.

The second quarter 2020 budget implementation report provides information on the realization and utilization of the Enugu State resources for the period under review. The rest of the report is organized as follows: a brief analysis of the macroeconomic development under which the budget was executed, fiscal analysis of the 2020 Budget Implementation and assumptions, followed by 2020 resources profile. This is followed by a careful analysis of 2020 second quarter budget implementation and a conclusion. This report also provides information on the 2020 half year budget performance.

## **2.0 MACRO-ECONOMIC AND FISCAL UPDATE**

The World after COVID-19 is unlikely to return to the world it was. Many trends already underway in the global economy are being accelerated by the impact of the pandemic. This is especially true of the digital economy with the rise of digital behavior such as remote working and learning telemedicine, and delivery services. Other structural changes may also accelerate, including regionalization of supply chains and a further explosion of cross-border data inflows.

The future of work has arrived faster, along with its challenges – many of them potentially multiplied such as income polarization, worker vulnerability, more gig work and the need for workers to adapt to occupational transitions. In a baseline scenario – which assumes that the pandemic fades in the second half of 2020 and containment efforts can be gradually unwound – the global economy is projected to grow by 5.8 percent in 2021 as economic activity normalizes, helped by policy support the risk for even more severe outcomes, however, are substantial targeted fiscal, monetary and financial market measures to support affected households and businesses domestically.

### **NIGERIAN ECONOMIC UPDATE**

The COVID – 19 outbreaks and collapse in international crude oil prices are set to push the economy back into recession this year. Job losses and lower remittances are posed to hit private consumption hard, while investment activity will suffer amid project delays and uncertainty. The oil price shock blow to the country's Forex earnings and fiscal revenues are major risk ahead. Focus Economics panelists see GDP contracting 2.5 in 2020, which is down 0.5 percentage points from last month's estimate, and growing 2.0 in 2021.

The Corona Virus Pandemic lock down measures put in place major economic hubs, and depressed global crude prices have completely derailed the economy's already-fragile recovery from its 2016 recession. On the heels of oil price crash in March, the private sector PM plunged to a survey record low in April as evaporated demand crushed output and new orders. Notably, disruptions to supply chains and tighter FX liquidity are also likely to stoke inflationary pressures. This, coupled with authority's indication of abiding to the OPEC agreement struck in April to cut output in May and June, will be pummeling the economy in Q2 in a bid to ease the economic pain, authorities started to gradually lift the lockdown in early May. Although this should enable an improvement in activity in the vast informal sector, possible retightening due to continued health concerns could exacerbate the economic impact.

The 2020 half year capital expenditure cash backed stood at a total of Fifteen billion, eight hundred and one million, seven hundred and sixty-one thousand, seven hundred and ninety-four naira (₦15,801,761,794). This is Thirty-four billion, five hundred and eighty-two million, sixty-seven thousand, three hundred and fifty-six naira (₦34,582,067,356) lower than the budgeted amount of Fifty billion, three hundred and eighty-three million, eight hundred and twenty-nine thousand, one hundred and fifty naira (₦50,383,829,150).

Furthermore, the aggregate expenditure cash backed (Recurrent and Capital) amounted to the sum of Forty-Six Billion, Six Hundred and Sixty-Four Million, Five Hundred and Thirty-Nine Thousand, Five Hundred and Ninety-Nine Naira (₦46,664,539,599.00) in the half year of 2020. The performance of recurrent expenditure stood at 89.73%, capital expenditure stood at 31.36% while total expenditure performance is at 55.04% against the half year budget respectively (see tables 4.5).

## 5.0 Conclusion

In the second quarter of 2020, the actual revenue that accrued to the State stood at N21,739,273,127.00 (twenty one billion, seven hundred and thirty nine million, two hundred and seventy three thousand, one hundred and twenty seven naira) against the quarterly projected revenue of N35,838,639,575 (thirty five billion, eight hundred and thirty eight million, six hundred and thirty nine thousand, five hundred and seventy five naira). This is N14,099,366,448 (fourteen billion, ninety nine million, three hundred and sixty six thousand, four hundred and forty eight naira) reduced than the quarterly projection and translates into 60.66% revenue performance. On expenditure, recurrent expenditure amounted to the sum of fifteen billion, six hundred and twenty-six million, one hundred and eighty-three thousand, eight hundred and eighty-two naira (N15,626,183,882.00) as at the end of second quarter of 2020. Capital expenditure in the quarter under review stood at Six Billion, Four Hundred and Eighty Four Million, Nine Hundred and Eighty Six Thousand, One Hundred and Seventy Seven Naira (N6,484,986,177.00) against quarterly budget of Twenty Five Billion, One Hundred Ninety One Million, Nine Hundred Fourteen Thousand, Five Hundred and Seventy Five Naira (N25,191,914,575.00). This is Eighteen Billion, Seven Hundred and Six Million, Nine Hundred and Twenty Eight Thousand, Three Hundred and Ninety Eight Naira (N18,706,928,398.00) or 74.26% less than the projected capital expenditure in the quarter. Thus, aggregate expenditure (recurrent and capital) in the second quarter of 2020 stood at N22,111,170,059.00 (Twenty Two Billion, One Hundred and Eleven Million, One Hundred And Seventy Thousand, Fifty Nine Naira) and translates into a quarterly budget performance of 52.16%.

The Mid-Year witnessed a revenue inflow of Forty three billion, two hundred and forty million, thirty four thousand, one hundred and eighty three naira (N43,240,034,183). Thus, in the year 2020 mid-year, expected revenue (recurrent revenue and capital receipt) estimate of Forty nine billion, six hundred and sixty eight million, six hundred thousand naira (N49,668,600,000) was not achieved by a sum of six billion, four hundred and twenty eight million, five hundred and sixty five thousand, eight hundred and seventeen naira (N6,428,565,817) from the approved mid-year revenue. This translates into 87.06% revenue performance. On expenditure, the capital expenditure in the mid-year of 2020 stood at Fifteen Billion, Eight Hundred and One Million, Seven Hundred and Sixty One Thousand, Seven Hundred and Ninety Four Naira (N15,801,761,794.00) implying a reduction of Thirty Four Billion, Five Hundred and Eighty Two Billion, Sixty Seven Thousand, Three Hundred and Fifty Six Naira (N34,582,067,356.00) or 68.64% below the half year projection of Fifty Billion, Three Hundred and Eighty Three Million, Eight Hundred and Twenty Nine Thousand, One Hundred and Fifty Naira (N50,383,829,150.00). Recurrent expenditure stood at a total of Thirty Billion, Eight Hundred and Sixty-Two Million, Seven Hundred and Seventy-Seven Thousand, Eight Hundred and Five Naira (N30,862,777,805.00). This is Three Billion, Five Hundred and Thirty-Two Million, Two Hundred and Twenty-Two Thousand, One Hundred and Ninety-Five Naira (N3,532,222,195.00)

or 10.27% below the projected half year budget of Thirty-Four Billion, Three Hundred and Ninety-Five Million Naira (~~₦~~34,395,000,000.00).

Thus, given a budget size of One Hundred and Sixty-Nine Billion, Five Hundred and Fifty-Seven Million, Six Hundred and Fifty-Eight Thousand, Three Hundred Naira (~~₦~~169,557,658,300.00), and a mid-year budget of Eighty four billion, seven hundred and seventy eight million, eight hundred and twenty nine thousand, one hundred and fifty naira (~~₦~~84,778,829,150.00), aggregate expenditure (capital and recurrent) stood Forty six billion, six hundred and sixty four million, five hundred and thirty nine thousand, five hundred and ninety nine naira (~~₦~~46,664,539,599.00). While the performance of recurrent expenditure stood at 89.73%, capital expenditure stood at 31.36% resulting in a total expenditure performance of 55.04% against the mid-year budget. Thus, the 2020 second quarter and mid-year report has clearly shown increased socio-economic developments in the area of security, health, Education, Human Capital development, Urban and Rural Development, Housing and others in Enugu State. This was occasioned by revenue inflow of Forty three billion, two hundred and forty million, thirty four thousand, one hundred and eighty three naira (~~₦~~43,240,034,183) thus far.
