# 1 Summary of Performance

## 1.A Introduction

This Budget Performance Report for Jigawa State is prepared quarterly and issued within four weeks from the end of each. This report is in respect of the period January to March representing the first quarter of the year.

This Q1 Report is based on the original approved budget as appropriated (there was yet to be a supplementary budget) against each organizational unit for each of the core economic classification of expenditures (Personnel, Overheads, Capital, and Others); the actual expenditures for the Q1, attributed to each organizational unit, as well as the cumulative expenditures for year to date, and balances against each of the revenue and expenditure appropriations. This Q1 report is assessed against the 2022 Original Budget

The core economic classifications refer to:

- Personnel – Economic Sub-Account Type 21
- Overheads - Economic Account Class 2202
- Capital - Economic Sub-Account Type 23/42
- Others - Economic Account Classes 2203-2209 as applicable

This Budget Performance Report is produced by the Directorate of Budget and Economic Planning based on budget outturns gathered from various sources especially the Treasury, Salary & Pensions Directorate, and other MDAs. In addition to this printed version of the report, it has also been published on the State's website including [www.jigawastate.gov.ng](http://www.jigawastate.gov.ng) and [www.jsbepd.org](http://www.jsbepd.org).

The total budget as originally approved is N177,795,588,000. On the expenditure side, this comprises of all components – personnel cost, overheads / other recurrent expenditure, and capital development programmes. On the income side, the figure comprises of recurrent incomes, capital receipts / grants, the year's opening balance and expected loans drawdowns contra-entered for the funding of specific capital expenditure.

The general performance assessment of revenue and expenditure based on the outturns during the first quarter of the year indicated a very satisfactory performance. On the revenue side, total outturns during the three months under review amounted to about N47.52 billion including an opening balance of about N5.56 billion. The total revenue outturns are equivalent to about 26.7% of the total appropriated incomes. On pro-rata basis, this is equivalent to almost 107%. Even without the opening balance, the overall pro-rated revenue performance during the first quarter is over 97%.

On the expenditure side, the data indicated a total expenditure outturn of about N34.37 billion equivalent to about 19.3% of the total appropriated expenditure. On pro-rate, the total expenditure outturns represent about 77.3%.

As would be seen, while the aggregate revenue and expenditure performance were satisfactory during the first quarter, the performance varies across the various components with some performance very satisfactorily while others performed less satisfactorily.

## 1.B Revenue Performance

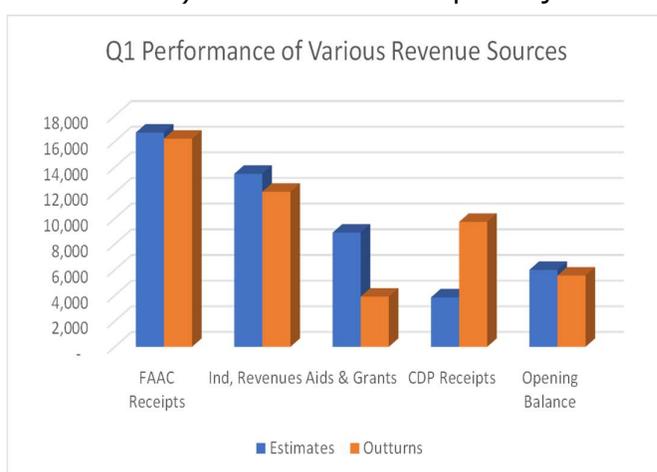

The overall Revenue performance is presented in Table 1 and summarised below indicated a very satisfactory performance. Total accrual as of the end of Q1 (including Opening Balance) was about N45.52 billion. While this is equivalent to about 27% of the total appropriated income and it also equivalent to almost 107% performance during the first three months of the fiscal year. Even without the opening of balance of almost N5.56 billion (against the estimated N6 billion) as obtained from the report of the 2022 Board of Survey Report, the actual revenue accruals, the performance will still be over 97% which could be described as excellent.

Overall Revenue Performance

<b>Total</b>		<b>177,795,588,000</b>	<b>47,524,118,360</b>	<b>26.7%</b>	<b>106.9%</b>	<b>130,271,469,640</b>

In absolute terms, more than one-third of the total revenue outturns amounting to about N16.22 billion has accrued from federal statutory transfers including Statutory Allocation, VAT and other transfers such as minerals revenues, exchange rate gains. Out of the N12.09 billion reportedly accrued from independent revenue sources which scored almost 90% pro-rated performance, more than 93% of it equivalent to about N11.3 billion was observed to have accrued from non-tax revenues some which are not "revenues" in the strict sense as they contra-entered

financing items such as Local Government Reimbursement for Primary Education Funding (SUBEB-LEA Staff Cost) and other such receipts for joint service delivery with the Local Governments. The

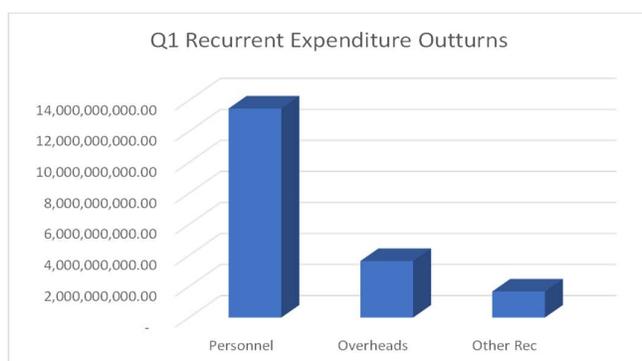

least performing revenue component is Aids and Grants with less than N4 billion as the 3-months outturns representing just about 44% pro-rated performance. Even though all the envisaged incomes coming in form of Aids and Grants are tied to specific capital projects and programmes, the dreary performance could affect the implementation of the affected projects and programmes. Worthy of comments is the performance of CDF Receipts from which as much as N9.74 billion was reported to have accrued during the first quarter. As will be seen in the details this was largely received from the Federal Government Bridging Loan

and other Receipts from JASCO in form of Parastatal Loan Repayment initially advanced to JASCO via JARDA. The outturn amounted to over 250% pro-rated performance.

## 1.C Recurrent Expenditure Performance

Details of Expenditure Performance are all presented in the relevant tables in the appendixes. An aggregated summary is captured in the table below:

2022 Q1 Expenditure Performance

Against the total appropriated recurrent expenditure of almost N86.96 billion, the sum of almost N18.8 billion was reported as the total recurrent expenditure outturn for the period of January to March. The total recurrent expenditure outturns amounted to about 21.6% of the total appropriated recurrent expenditure which also represents about 86.5% pro-rated performance. This could be adjudged as a satisfactory performance. While both Personnel Costs and

2207	Transfers - Payments	254,000,000	28,751,337	11.3%	45.3%	225,248,663

Other Recurrent Expenditure performed above 90%, Overhead Cost Expenditure under economic code 2202 amounted to just about 60% which is below average performance. While about 25% of the appropriated expenditure would be the expected prorated expenditure in three months, the expenditure ratio as indicated in the table above stood at only 15% which amounted to the prorated 60%. A more expanded details of the recurrent expenditure outturns and performance are presented below:

Seemingly the lower performance with regards to Social Benefits with less 50% Q1 Performance was based on the fact, except for monthly payments of pensions, expenditure on the other

components of social benefits are not automatic monthly expenditure including Gratuity, Death Benefits, Severance Gratuity and Bereaved Family Allowance. Expenditure on these only happens when the needs arise. This explained the lower aggregate expenditure of about N138.8 million against the estimated N1.128 billion.

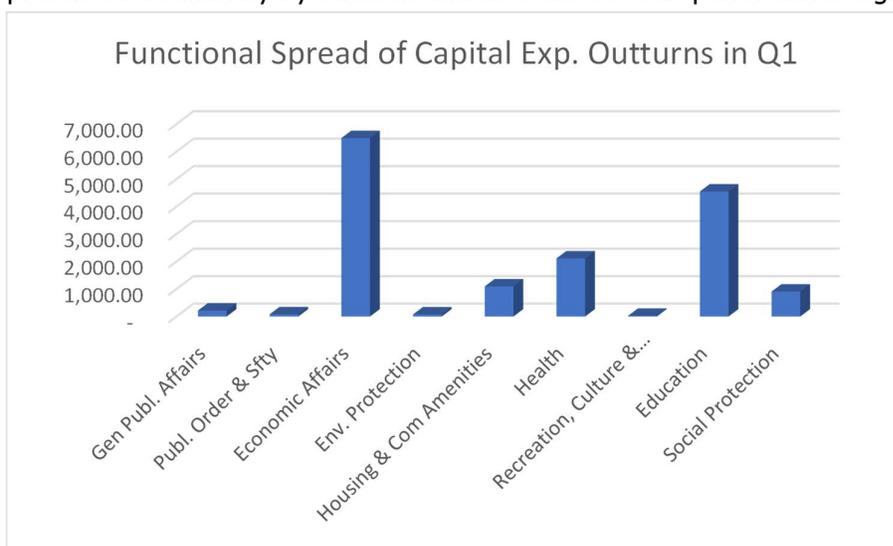

As earlier mentioned, expenditure on Other Recurrent Expenditure was only 22.5% of the total approved estimates representing over 90% prorated performance. While there are apparent under-reporting with regards to the outturns on Loans and Advances and Grants & Contributions, the relatively good performance is largely attributable to the outturn of Public Debt Charges (internal and external debt repayment for both principal and interests as well as settlement of contractual liabilities). The downside is with regards to overhead expenditure on goods and supplies with a reported performance of only about 60.1% on pro-rata basis.

### 1.D Capital Expenditure Performance

Total capital expenditure as of the end of Q1 as presented below amounted to about N15.57 billion

<b>Total Capital Expenditure</b>		<b>90,837,000,000</b>	<b>15,568,958,531.39</b>	<b>17.1%</b>	<b>68.6%</b>	<b>75,268,041,468.61</b>

equivalents to about 17% of the total appropriated capital expenditure outlay. On pro-rata, this below the envisaged outturn at the end of the quarter. Percentage wise, the first quarter performance stands at about 68.7%. While details are presented in the appendixes, the above table presented a summary by function and as could be seen performance significantly varies across the

various functional areas of capital expenditure. In relative terms, the best performing functional areas include education, social protection, and perhaps health and economic affairs. All other functional areas performed much below expectation. The worst performing area is environmental protection with only about 5%

performance. This is majorly the expenditure in this area is expected to be funded from a World Bank loan drawn for the ACREsAL Project for which there is yet to be a drawdown. In absolute terms, much of the expenditure outturns during Q1 occurred in the Economic Affairs function with

a total expenditure of almost N6.5 billion equivalents to almost 42% of the total Q1 capital expenditure outturns. Expectedly, much of this was in the roads sub-functional area of economic affairs. The education function with an outturn of over N4.5 billion accounted for almost one-third of the total Q1 outturn even though the prorated performance was only 67%. The third highest spending area is health with a total expenditure outturn of about N2.1 billion during the three months period. Even though the high spending area falls within the priority areas, there should be the need to ensure other areas are not significantly lower than expected.

## **1.E Conclusions**

In conclusion, the overall Q1 Budget Implementation Report indicated very excellent performance in most of the revenue and expenditure areas. However, as observed, the overall performance on capital expenditure is below expectation and considering that it's largely through the capital investment activities that most of the budgetary outputs and outcomes are expected to be delivered, much needs to be done. In addition, although over 85% of the capital expenditure outturns were in the priority areas of the health, education and economic affairs functional areas, there is need for equally more attention in other areas to reduce the skewness.
