# 1 Summary of Performance

## 1.A Introduction

This Budget Performance Report for Ondo State is prepared quarterly, and issued within 4 weeks from the end of each quarter.

This report includes, the original approved budget appropriation for the year 2023 against each organizational unit for each of the core economic classification of expenditures (Personnel, Overheads, Capital, and Others); the actual expenditures for quarter TWO (Q2), attributed to each organizational unit, as well as the cumulative expenditures for year to date, and balances against each of the revenue and expenditure appropriations.

This Q2 report is assessed against the 2023 Original Budget.

The core economic classifications refer to:

- Personnel – Economic Sub-Account Type 21
- Overheads - Economic Account Class 2202
- Capital - Economic Sub-Account Type 32
- Others - Economic Account Classes 2203-2209 as applicable

This Budget Performance Report is produced by the Ministry of Economic Planning and Budget, Ondo State and published on the Ondo State Budget website ([www.ondobudget.org](http://www.ondobudget.org)).

## 1.B Revenue Performance

From table 1, the recurrent revenue performed at 56.7% as against 50.0% expectation for the second quarter (Q2). The good performance of recurrent revenue for this quarter is attributable to the more-than-expected revenues received from FAAC (55.9%) and Independent Revenue (IR) (59.7%). The reason for the high performance from FAAC is because of 91.5%, 61.6% and 86.1% allocation to the state on Mineral Derivation, VAT and Special FAAC Allocation respectively. Also, the outstanding result from IR was because inflows from many of the revenue items like Drivers Licenses (598.9%), Consumption Tax (360.1%) Development Levy/Tax (2815.0%), Capital Gain Tax (582.5%), inter alia, were more than the projections for the entire year. This indicates that those items were under-projected during budget preparation. On the whole the recurrent revenue generated in 2023 Q2 is 52.1% more than N54,562,125,003.44 generated in the same quarter of 2022.

On Capital receipts, domestic grants, being capital grants from FGN performed at 50.8%, which was ₦2.0 billion and ₦1.268 billion received from the Federal Government to finance Covid-19 Action Recovery & Economic Stimulus (N-CARES) programme and fund for the development of primary school's infrastructures respectively. Meanwhile, till the end of Q2, the domestic loans/borrowing of ₦58.1 billion as not been accessed. This is because the documentation processes and qualification criteria could not be completed before the end of the quarter.

It is also noted that many MDAs except Ondo State Public Sector Institute performed far below expectation. Ingenuous efforts would be put in place to increase revenue generating drive to enable all revenue generating MADAs meet their targets for the year.

## 1.C Recurrent Expenditure Performance

The Recurrent Expenditure includes Personnel and Overhead Expenditure.

- a. **Personnel Expenditure:** The performance year to date of Personnel Expenditure is ₦31.308 billion, representing 53.2% of the budget figure. This means that personnel expenditure is 3.2% higher than what it should be for the period. This difference is because of the December 2022 salary paid this year, meaning that seven-month salaries have been paid till date (Q2). It is also observed that many

of the MDAs have drawn more than and many less than 50% of their personnel budget. The reason for this is that many officers were posted from one MDA to the other, and as they moved from their former MDAs, they changed their pay point to their present MDAs. This is a policy being practised in Ondo State to forestall officers receiving salaries in two MDAs. Despite the good reason for the policy, it affects the personnel provisions of the MDAs relative to their actuals. The state should look into the negative effect of the policy.

- b. Overheads: This expenditure comprises the monthly releases for the running of MDAs. Of the ₦24.975 billion budgeted for the year 2022, ₦10.985 billion, representing 40.0% has been released to MDAs as at Q2 of 2023. The amount released for Overhead is 10.0% less than the expected average, this was as a result of government's deliberate reduction in overhead spending.
- c. Other Recurrent Cost: This is expenditure incurred on interest paid on loan and transfers to government owned institutions and companies. At the expiration of 2023 Q1, ₦16.883 billion representing 36.7% was expended on them, as against ₦23,031 billion expected to have been spent. Almost all the expenditures here were less than 50% expected for the period, except transfers to Ondo State Internal Revenue Service which performed at 54.1%.

## 1.D Capital Expenditure Performance

Capital Expenditure Performance: The Performance in Q2 of the capital expenditure is ₦23.663 billion, representing 16.2% of the total budget for the year. The reason for this a not-too-much cheering performance can be attributed to, among others:

- i. Many MDAs were not able to complete their contract awarding formalities in the second quarter of the year;
- ii. Some MDAs with Capital Receipts running to billions of naira have not been able to draw down much of such loans or grants. Examples are ₦16.0 billion loan from French Development Agency (AFD) for Provision of Water Facility to Akure and its Environments expected to be drawn by Ondo State Water Corporation; ₦25.0 billion loans to be borrowed from deposit money banks; ₦ 10.0 billion State Action on Business Enabling Reform (SABER) Loan from World Bank and ₦30.0 billion bond, etc. All these are meant to finance capital expenditure for the year, of which no kobo has since been accessed.

## 1.E Conclusions

The figures provided below show that the performance in Q2 were good as far as recurrent revenue is concerned, but the total expenditure of N82.839 billion is less than the total revenue generated during the period under review. This leaves the sum of N16.619 billion as the closing balance for the period which, other things being equal, will be put to developmental use in Q3. Also, the necessary documentations required to draw down the budgeted capital receipts should also be fast-tracked.

## 2 Budget Reports

### 2.A Summary

**Table 1: Budget Summary**
