2 Summary of Performance

2.A Introduction

Evidently, Zamfara is richly endowed with enormous minerals and human resources. Yet the economy is lagging in terms of most indices of development, including the GDP. The State is largely rural and agrarian with scattered farming settlements and cattle breeders.

In Zamfara state the overall employment structure indicates that, about Eighty percent (80%) of the populace are peasant farmers that engage in raining & dry season farming and animal husbandry. Nine percent (9%) of the populace are engage in petty and small-scale trading, while Seven percent (7%) are civil servant and the remaining Four percent (4%) engage in other occupations.

The State Government has four main sources of revenue. These include Statutory Allocation from Federation Account, Value Added Tax (VAT), Capital Receipts from various sources and Internally Generated Revenue (IGR). The statutory allocation is the State Government's share of the Federation Account and it includes other Federal Government Grants. The Capital receipts has been accruing from statutory transfers, loans (both internal and external), grants from ADB/World Bank and other Development Partners, loan repayments to government and receipt from stabilization account, as well as proceeds from sales of other Government assets. The Internally generated revenue includes taxes (personal income, capital gains, etc.), fees and fines, licenses, earnings and sales, rent on government properties, interest repayment and dividends, reimbursement from Federal Government on pensions and gratuities etc.

The Economy of Zamfara State is public sector driven with the state GDP ranked 27 out of the 36 states in the country. The GDP is estimated to be N1.262Trillion and per capita GDP of N300.39 million. The Government as the sole and major employer of labour with little private sector participation. This creates a delicate situation where limited resources are allocated to meet ever increasing demand for social services by the citizens.

Despite various development efforts by the State to manage the effect of COVID-19 Pandemic on the economy, the economy has not performed to satisfaction. Infact the state economy is not yet vibrant despite the huge opportunities that are available in the State, this is probably due to the major security challenge facing the state. In spite of the State's abundant agricultural potentials, industrial and tourism opportunities, the State insecurity status make the revenue to be largely dependent on state share of the Federal Revenue in form of monthly allocations. The profile of the Internally Generated Revenue which constitutes less than 20% of the total collectable revenue is not encouraging but is indeed expected to increase by the third quarter of the year, as the state is planning to implement CARES programme on Agriculture, Livelihood, SMEs, Labour Intensive Workforce and more by August this year. The CARES programme is expected to boost economic activities due to livelihood and small and medium scale activities to be implemented.

Zamfara State has the potential to be a net producer of food crops, mineral and industrial items. Indeed a net exporter of cash crops such as cotton, groundnut, rice and cassava. Its human resources, vast arable land and huge irrigation facility positions the State to be economically vibrant. The availability of mineral deposit if well harnessed and resources productively employed could not only generate increased internally sourced revenue but also create necessary conditions for increase in employment, which will ultimately increase the state GDP.

This Budget Performance Report for Zamfara State is prepared quarterly and issued within 4 weeks from the end of each quarter.

This report includes the approved original budget appropriation for the year 2021 (no supplementary or revised budget has been passed to date) against each organizational unit for each of the core economic classification of expenditures (Personnel, Overheads, Capital, and Others); the actual expenditures for the first quarter, attributed to each organizational unit, as well as the cumulative expenditures for year to date, and balances against each of the revenue and expenditure appropriations. Performance is reported against the original 2021 budget since no supplementary or revised budget have been passed to date in 2021.

The core economic classifications refer to:

- Personnel – Economic Sub-Account Type 21, and Economic Account Class 2201
- Overheads - Economic Account Class 2202
- Capital - Economic Sub-Account Type 23
- Others - Economic Account Classes 2203-2208 as applicable

This Budget Performance Report is produced by the Ministry of Budget & Economic Planning, Office of the Account General and Ministry of Finance, and published on both Ministries websites.

2.B Revenue Performance

Basically, there are two main sources of revenue from the state. The external revenue and internally generated revenue. The external revenue are sources of revenue that usually come from Federation Account which comprises i.e. Statutory Allocation, Value Added Tax (TAX), Exchange gain, Excess crude Oil etc. these are allocation that are shared to states based on formula by Revenue Mobilization and Fiscal Commission as contain by the constitution of the Federal Republic of Nigeria.

The internally Generated Revenue is independent revenue generated by the state through the implementation of law enacted by the state in accordance with Joint Tax Board.

External Revenue Performance

The FAAC Revenue projection for the year 2021 was estimated to *fifty Billion One Hundred and Fifty Million Naira Only (₦50,150,000,000)* this projection is part of Recurrent Revenue that was designed to carter for the payment of recurrent expenditures.

The amount received during the second quarter of the year, from April – June 2021 was *Thirteen Billion Two Hundred and fifty-Eight million One Hundred and Twelve Thousand Seven Hundred and Thirty-Three Naira seventy four Kobo Only (₦13,258,112,733.74)* which represent 26.4%.

The total cumulative for the two quarters is **Twenty-five billion Seven Hundred and Eighty Eight Million Ninety Thousand One Hundred Thirty one Naira Twenty four kobo (₦25,788,090,131,24)** Which represent **51.4%** of financial year forecast. The price of crude Oil increase above the benchmark gives a positive impact to the Economy, as such the performance of the external revenue is favourable to the recurrent revenue. Consequently, these shows that, the revenue accruing to the state are slightly higher than the projected amount, which suggest that there is an improvement in our effort to recover from the negative impact of COVID-19 pandemic.

Internally Generated Revenue

The total projection for the Internally Generated Revenue which forms part of recurrent revenue is to the tune of *Twenty-Four Billion Three Hundred and Forty-One Million Two Hundred and Fifty One Thousand Naira Only (₦24,341,251,000)* for the 2021 fiscal year.

However, for the Second quarter of the year (April – June 2021) the Sum of *Seven Billion Three Hundred and Forty Million, Nine Hundred and Twenty-one Thousand Two Hundred and Thirty-nine*

Naira, Eighty-two Kobo (₦7,340,921,239.82) was realised which represent 30.1% of the projection for the fiscal year 2021. The Total internal Revenue Generated for the Two quarters January to June is **Eight Billion Four Hundred and Four Million Five Hundred and Seventy-six Thousand Six Hundred and Forty-four Naira Twenty-five kobo (₦8,404,576,644.25)** which represent 34.5% for the two quarters this too low and unfair, considering the significant of (IGR) to the development of the state. However, adequate mechanism were put in place to ensure the desire target has been achieve.

2.C Recurrent Expenditure Performance

Recurrent Expenditures are expenses government incurred in the course of running the system ranging from payment of salaries, office day to day expenses, pension & gratuity and loan servicing. It is a usual practice that, recurrent revenues are most times higher than the recurrent need of the state, therefore, excess recurrent revenue are transferred to capital development fund.

Total monies available for recurrent expenditure by the end of second quarter (half of the year) stood as ₦34.1926 billion or 45.9% of the recurrent revenue budgeted for the fiscal year 2021. However, actual expenditures at the end of quarter was ₦20.977 billion representing 33.2% of total estimated expenditures for the FY. The balance of ₦12.215 represent 116.1% of the total revenue expected to be transferred to capital were transferred during the first half of the year. This clearly indicated that, the state government is commitment towards reducing cost of running office in favour of providing capital development infrastructure. Details is contained in the table on 3D. But, needful to mentioned here is that, in the second quarter of the year, the sum of ₦11.588 billion was transferred to capital against less than ₦2 billion that was actually transferred in the first quarter. This is due to the fact that some of the independent revenues (PAYE both Federal, State and Local Government) for the first quarter was actually received in April 2021 thereby adding to the overall collection for the second quarter.
